THE FACULTY

JOHN C. THOMPSON, A. B., B. S., M. A.
Washington Missionary College; George Peabody College for Teachers; University of Maryland; Johns Hopkins University. Instructor, Maplewood Academy, 1917-1918. Educational Secretary of Southern Union Conference of Seventh-day Adventists, 1918-1925. Religious Education, General Conference of Seventh-day Adventists, 1925-1937. President of Southern Junior College, 1937—

ROBERT K. BOYD, A. B., M. A.
Emmanuel Missionary College; Michigan State College. Instructor in Mathematics and Accountant, Cedar Lake Academy, 1930-1937. Instructor in Mathematics and Accountant, Adelphian Academy, 1937-1938. Instructor, Business Administration, Southern Junior College, 1938—

STANLEY D. BROWN, A. B., A. B. in L. S., M. A.
Washington Missionary College; University of North Carolina; University of Maryland. Instructor, English, Librarian, Southern Junior College, 1935—

MARY HOLDER-DIETEL, A. B., M. A.

OLA K. GANT, B. S., M. S.

GRACE EVANS-GREEN, A. B., M. A.
ELSIE ORTNER-JOHNSON, A. B., M. S.

Union College; The University of Tennessee. Preceptress, Oak Park Academy, 1929-1930. Instructor, Business Administration, Southern Junior College, 1937-1938, 1939—

DON C. LUDINGTON, A. B., B. S., M. A.

MYRTLE V. MAXWELL, A. B., M. A.

GEORGE J. NELSON, B. S., M. S.

HAROLD E. SNIDE, A. B., M. A.

Washington Missionary College; American University; Seventh-day Adventist Theological Seminary. Instructor, Home Study Institute, 1932-1934. Instructor, Bible, Washington Missionary College, Summer Session, 1934. Instructor, Bible and Greek, Southern Junior College, 1934—

MARY CARTER-CHAMPION, B. S.

GEORGE B. DEAN, A. B.

University of Wichita; The University of Tennessee. Instructor, Science, Kline High School, Kline, Colorado, 1934-1935. Instructor, Science and Mathematics, Graysville Academy, 1937-1938. Graduate Laboratory Assistant, Southern Junior College, 1939—
OLIVIA BRICKMAN-DEAN, A. B.

RUDOLPH JOHNSON, A. B.
Union College. Superintendent of Lake City Schools, South Dakota, 1930-1933. Dean of Men, Instructor, History, Southern Junior College, 1937—

MAUDE I. JONES, A. B.
Mississippi State College for Women; University of Chicago; University of Georgia; George Peabody College for Teachers; The University of Tennessee. Instructor, Mississippi Public Schools, 1894-1897. Instructor, Latin, Mississippi State College for Women, 1899-1905. Instructor, Latin and Mathematics, Higbee School, Memphis, Tennessee, 1903-1912. Instructor, English and Latin, Southern Junior College, 1917—

HAROLD A. MILLER, B. Mus.
Otterbein College; Denison University; Eastman School of Music; Von Unschuld University. Director, Department of Music, Mount Vernon Academy, 1916-1929, 1934-1935. Director, Department of Music, Washington Missionary College, 1929-1934. Director, Department of Music, Southern Junior College, 1935—

EDYTHE COBET-WILLIAMS, R. N., B. S.
Florida Sanitarium and Hospital School of Nursing; Washington Missionary College. Director, Health Service for Women, Instructor in Nursing Education, Southern Junior College, 1934—

THEODORA WIRAK, A. B.

WALTER E. WILLIAMS, R. N.
Florida Sanitarium and Hospital School of Nursing. Private duty nursing, 1931-1935. Director, Health Service for Men, Southern Junior College, 1936-1937. Director, Health Service for Men, Instructor, Physical Education, Southern Junior College, 1937—

OLIVE ROGERS-BATSON
Mississippi State Teachers College; Washington Missionary College; University of Chattanooga. Instructor, Piano and Expression, Alabama-Mississippi Academy, 1934-35. Instructor, Piano and Expression, Southern Junior College, 1937—

SOUTHERN JUNIOR COLLEGE

HISTORY

The year eighteen hundred ninety-three marked the beginning of the educational work of Seventh-day Adventists in the South. At that time, a small school, afterward to be known as the Southern Training School, was established in Graysville, Tennessee. Twenty-three years later, there was a change both in name and location, and now Southern Junior College at Collegedale, Tennessee, serves the constituency of the Southeastern states.

The College is situated on the Atlanta Division of the Southern Railway, eighteen miles east of Chattanooga, on a beautiful nine-hundred acre estate. This rural environment has been one of the strongest factors in the development of the institution, in that it has furnished the isolation so necessary to genuine progress.

Nineteen hundred sixteen saw Southern Junior College begin its struggle for existence on a farm with an estimated value of $12,000 and with only seven or eight real houses. Cabins, tents, and other temporary structures played an important part in those early days.

Nineteen hundred thirty-nine dawned upon an established plant with a present worth of $380,000 and with buildings and equipment as follows: An administration hall, a demonstration-school building, two large dormitories, a hosiery mill, a woodcraft shop, a food factory, a print shop, a broom factory, a dairy barn, a garage, a horse barn, an ice plant, and nineteen residences. Surely in the light of this remarkable growth, one is constrained to exclaim, "What hath God wrought!"

In an effort to carry out the instruction given in the Spirit of Prophecy as to the three-fold education of the youth, Southern Junior College offers training which will fit one for work in religious, professional, or vocational fields. The sincere hope of the institution is: That many of its students, under the influence of an atmosphere which is permeated by Christian faith and Christian ideals, may catch the vision of evangelism, and be led to devote their lives to the ministry. That others, under the guidance of those who have attained the coveted goal of excellent scholarship combined with unaffected piety, may follow the gleam of
intellectual development, and dedicate their talents to the teaching profession. That still others, because of the stress which is placed upon the dignity of labor, may turn their attention to the practical side of life, and be led to give consecrated service in the world of industries.

This hope is destined to reach its glad fruition only when, from year to year, there comes to Southern Junior College the assurance that it has instilled into the youth who have sojourned within its walls, principles of such rugged sincerity and fearless integrity that each one, as he goes forth to meet the future, will pledge himself unhesitatingly to help satisfy "the greatest want of the world—the want of men of men who will stand for right though the heavens fall."

PURPOSE

The primary objectives of Southern Junior College are the development of Christian character and the training of workers for the missionary enterprises which the Seventh-day Adventist denomination is carrying on in all parts of the world.

The school is open to all worthy persons who come for the purpose of doing earnest, faithful work. Those who have little desire to study, or who are careless in their deportment are not encouraged to enter.

Young people should remember that the school is a Christian institution. Unless they are willing to give due respect to the Word of God, the Sabbath, worship and other religious exercises of the institution, they should not apply for admittance.

ACCREDITATION

Southern Junior College is fully accredited by, or is a member of, the following organizations: Southern Association of Colleges and Secondary Schools, Tennessee State Department of Education, American Association of Junior Colleges, Southern Association of Private Schools, Tennessee College Association, Mid-South Association of Private Schools, Seventh-day Adventist Association of Colleges and Secondary Schools.
EXPENSES

The College classifies its students at the time of admission in two groups. Those who are registered for regular class work are designated as "matriculated students." Those who are admitted to employment in the College industries, and who do not carry class work until sufficient credit has been accumulated, are known as "employed students." Regulations of the school apply to all students alike, regardless of classification.

ENTRANCE DEPOSITS

At the time of admission an entrance deposit is required of all students as follows: matriculated students, $50.00; employed students, $25.00; resident matriculated students, college or preparatory, $20.00; resident matriculated elementary students, $10.00.

This deposit will be held as a guarantee that each periodic statement will be paid when presented; and cannot under any circumstances be drawn upon during the school term, either for cash or for the payment of a school bill or for any personal expenses, but will be applied on the statement of the last period the student is in school. Students remaining in school less than eight weeks will be charged a matriculation fee of $5.00.

TUITION

The yearly charges for tuition in all departments are as follows:

**Elementary Department**

<table>
<thead>
<tr>
<th>Grades I to III</th>
<th>$27.00</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grades IV to VI</td>
<td>$36.00</td>
</tr>
<tr>
<td>Grades VII and VIII</td>
<td>$54.00</td>
</tr>
</tbody>
</table>

In the elementary school, the tuition charges also include medical examination, library, and manual training.

**Preparatory or High School Department**

<table>
<thead>
<tr>
<th>Tuition for the year</th>
<th>4 units or subjects</th>
<th>$130.00</th>
</tr>
</thead>
<tbody>
<tr>

- Typewriter rent, 2 hours a day ............................... 5.00
- Zoology ............................................................... 8.00

* No fees are refundable

**CHARGES FOR MUSIC**

Students who enroll for music are expected to continue lessons for at least a half-year. The charge for all private music instruction is $18.00 a semester.
COLLEGE DALE, TENNESSEE

No refund on lessons will be given to students who drop their work during a semester. In no case will lessons which are lost on account of the student's absence be made up.

TRANSPORTATION

Free transportation to and from Ooltewah will be provided the first three days of each semester and the last three days of the school term. At intermediate times a charge of fifty cents will be made.

The school provides transportation and chaperonage to Chattanooga two days each week. The charge for each trip is seventy-five cents a student.

DORMITORY EXPENSE

A charge of $3.25 each week is made to all students who reside in the dormitories. On this basis two students are expected to occupy one room. The charge includes: room, provided with a maximum of 120 watts of electric light, and steam heat; laundry to the extent of $1.25 each week; medical care, which provides for a physical examination at the beginning of school, workmen's compensation insurance, and nursing care not to exceed three weeks. The rate quoted does not cover the charge for visits made by a physician to any student, nor calls made by the school nurse to those living outside the dormitory.

One week constitutes a minimum charge. No refunds from room rent are made for an absence of two weeks or less. Refunds may be made for an absence of more than two weeks provided property is withdrawn and the room released.

Students should have each garment marked with a cloth name tape. These name tapes may be secured from the Sterling Name Tape Company, Winsted, Conn.

BOARD

The cafeteria plan of boarding, which allows the student the privilege of choosing his food and paying only for what he selects, is used. The minimum weekly charge for dormitory students is $3.00 for young women, and $3.75 for young men. Three meals a day are served. Students living in the dormitories are expected to take their meals in the dining room. No allowance for absence from the campus is made other than one week during the holiday vacation, and in case of emergencies.
PAYMENTS OF ACCOUNTS

Charges for tuition, room, and board will be made each four-week period, and a statement will be issued to each student. Fifteen days will be allowed after the date of statement for settlement of accounts. Failure to make prompt settlement within the period specified may terminate the student's connection with the school.

The College Board has made the costs as low as is consistent with educational efficiency. The school, therefore, must expect prompt payment of all outstanding bills. Accounts that remain unpaid thirty days after statement is presented are subject to six per cent yearly interest. Students are permitted to write mid-term or final examinations only when their accounts are settled, or when satisfactory arrangements have been made with the Finance Committee. Grade transcripts and diplomas are issued only to students whose accounts are paid in full.

DISCOUNTS

Tuition and dormitory expenses for the year are divided into nine periods (See period calendar, page three.) Statements are subject to five per cent discount of current charges on tuition and room rent only, if paid not later than fifteen days after date of statement. PLEASE NOTICE DISCOUNT DATE STAMPED ON EACH STATEMENT! The entire amount of statement must be paid in order to receive any discount.

Discounts are not allowed to those who earn on the campus fifty per cent or more of the current period school expenses.

A discount of eight per cent will be granted for cash in advance for the semester, ten per cent for the school year, on tuition and room rent only. A statement for charges other than tuition and room rent, such as board, will be made each period, and this amount should be paid on or before the expiration of the current discount date, or discount allowed for advance payment will be immediately charged back to the student’s account.

No deposit will be required if one semester of school work is paid for in advance.
Where there are three or more students from the same family, and the charges are met by one individual, an additional discount of five per cent will be allowed if the account is paid during the discount period.

Missionaries or dependents of same on furlough are allowed a fifty per cent discount on tuition only, the first year of furlough, provided the remaining expenses are paid before the close of the discount period.

Students qualifying for colporteur scholarship bonuses are not eligible for regular discounts as herein listed, because of the generous discount otherwise allowed.

**STUDENTS SHOULD BE PROVIDED WITH SUFFICIENT FUNDS IN ADDITION TO REQUIRED ENTRANCE FEES TO COVER COST OF BOOKS, STATIONERY, CLOTHING, DENTISTRY, AND ALL PERSONAL ITEMS.**

Post-dated checks are not acceptable.

**CHANGE OF PROGRAM**

When a student drops any of his class work or leaves the school, he must present to the business office a drop voucher from the Registrar's office. Tuition will be charged until such voucher is received. Those who drop school work during any four-week period will be charged for the full period. Two weeks will be allowed at the beginning of each semester for a change of program without charge.

**EXPENSES ESTIMATED**

</tr>
</tbody>
</table>

These figures are minimum charges. The board of some students will run as high as $50.00 above these minimums.
COLPORTEUR SCHOLARSHIPS

Colporteurs who sell $530 worth of subscription books receive the usual fifty per cent commission, $265, plus a bonus of $66, making a total credit of $331. This amount is not sufficient to cover all school expenses of the student, but the College agrees to furnish labor so that the student may earn the remainder.

TUITION SCHOLARSHIPS

Each year the College, in conjunction with the several local conferences of the Southern Union, awards eleven $50 cash scholarships to be applied on tuition. The method of choice is as follows: The faculty of each designated school nominates its candidate, which nomination must be approved by the school board and recommended to the educational board of the local conference, which has final choice. The selection of nominees must be based on scholarship, character, personality, and promise of future leadership. The names of the winners are announced at the time of commencement at the College. The following schools are eligible to participate in this plan:

- Asheville Agricultural School
- Atlanta Junior Academy
- Forest Lake Academy
- Fountain Head Rural School
- Memphis Junior Academy
- Nashville Junior Academy
- Pewee Valley Academy
- Pine Forest Academy
- Pisgah Institute
- Sand Mountain Junior Academy
- Southern Junior College Preparatory Department

EDUCATIONAL FUND

Many promising young people are deprived of the privilege of attending college because of a lack of necessary means. To aid these, an earnest effort has been made to obtain donations for the establishment of an educational fund, from which students worthy of help may
borrow money for a reasonable length of time. Faithfulness in refunding these loans will make it possible for the same money to assist several students in school. There have been some gifts, and they have been expended in such a way as to help several promising young men and women to complete their work; but the needs of this class of students have been greater than the amount of funds on hand, and it has consequently been impossible to render the desired assistance to as many as should be helped. It, accordingly, has been determined to invite the attention of patrons and friends of the school to these facts and to ask them to give such means as they may desire, to be used for this purpose. We should be glad to correspond with any who think favorably of this plan, and shall continue to use the utmost caution in the use of the means donated, that the wishes of the donors may be fully carried out, and that the best results may be obtained.

"In each conference a fund should be raised to lend to worthy poor students who desire to give themselves to the missionary work; and in some cases they should even receive donations. When the Battle Creek College was first started, there was a fund placed in the Review and Herald office for the benefit of those who wished to obtain an education, but had not the means. This was used by several students until they could get a good start; then from their earnings they would replace what they had drawn, so that others might be benefited by the fund. The youth should have it plainly set before them that they must work their own way as far as possible and thus partly defray their expenses. That which costs little will be appreciated little. But that which costs a price somewhere near its real value will be estimated accordingly."—"Testimonies," Vol. VI, pp. 213, 214.

EMPLOYMENT OF STUDENTS

The College endeavors through employment in its industrial organizations to assist students in defraying their school expenses. Many students who are industrious and frugal succeed in earning the entire cost of their education. Only students of serious purpose should expect to be thus successful, and then only on a restricted class program.

Many letters come to us asking whether students can work for their expenses, wholly or in part. All we can promise is that we furnish,
to those who prove themselves efficient and worthy, such work as is available. Since work of the College is performed mainly by students, those who are willing and capable will probably find all the work that their school program will allow them to perform.

Students who apply for admission to the College with the intention of obtaining employment by which to accumulate financial credit, will be required to pay an entrance deposit of $25.00. This deposit cannot be withdrawn, but must be applied on school expenses. It is not refundable if the student does not remain a full school year.

No cash may be drawn from the business office on accounts. Deposit accounts for those who wish to put their funds in safe keeping, subject to withdrawal in person only, may be opened at the business office.

Students who are given work in the various departments of the school or affiliated industries, and who have a credit balance as a result of such labor, may authorize the payment to the church treasurer as tithe, ten per cent of their earnings. The remainder must be used for tuition, board, and room. No student who is neither employed nor matriculated, is permitted to remain at the College.

A student who has a credit balance as a result of labor, at the time of graduation or departure from the College, may transfer this credit to a member of his immediate family, but in no case will he be paid cash for labor in excess of the allowance granted in the preceding paragraphs.

All purchases from the College store or from other departments on the campus must be paid for in cash. No charge accounts are accepted.

FINANCIAL PLANS

There are several different bases upon which students may attend Southern Junior College, depending upon the sum of money they expect to pay into the school, and consequently upon the amount of industrial labor they must do. For the convenience of prospective students in determining the basis upon which they can attend school, the following summary is given. In applying for admission to Southern Junior College, please indicate which plan best fits your individual situation.
Each of the financial plans below includes tuition for the specified class load, room, laundry, medical fee, and the average expense for board. Because of our using the cafeteria plan, whereby an individual pays for just what he eats, one's total expense may be a bit more or less than the average figures here given. The six plans presented below do not include the expenses for books, laboratory fees, private lessons in expression or music. Each plan is subject to variation to fit the needs of the individual student.

Plan Number 1. On this plan the student will pay all of his expenses in cash. For boys this will average $412.25 for a school year; for girls, $372.25. College students will have in addition fees of from $5.00 to $56.00, depending upon the courses taken. Certain of our curricula are so heavy that if they are completed in the number of semesters indicated, a student will have little time for labor.

Plan Number II. A student accepted on this plan will labor ten hours per week, which labor will reduce the total expense by $72.00. For many students this is all the work a full program of studies will allow.

Plan Number III. On this plan the student will labor twenty hours per week, the maximum allowed anyone who attempts full school work. This amount of labor will earn $150.00 during the school year.

Plan Number IV. A student on this plan elects to labor thirty hours per week. This will permit of but twelve semester-hours of class work instead of sixteen (or three high school units), and amounts to $225.00 for the school year, which with the reduced tuition lowers the above expenses by $255.00. Three years will be required for the completion of a two-year course.

Plan Number V. A student accepted on this plan will work forty hours per week. This heavy program of labor permits a student to take but one-half of a full school load, amounts to $300.00, and with the proportionate reduction in tuition lowers the total charges for the school year by $360.00. Four years will be required to complete a two-year course.

Plan Number VI. A few students can be accepted on the basis of meeting their entire school expenses by working in the hosiery mill. A three-year contract must be signed by the student, requiring forty hours of labor per week and allowing of one-half of a full class program during the regular session plus an additional subject during the summer. Two years of school work can be completed during the three-year period.

* Plans I to V require a $50.00 entrance deposit which is held to apply on the last month's expenses. Plan VI, based upon a full calendar year, requires a contract deposit of $25.00, payable upon admission.

** All figures on this page are based upon the average expense for boys. The average expense for girls is about $40.00 per year less.

*** There are no fees for high school students; fees being charged for college courses only.
ADMISSION REQUIREMENTS

The school is open to young men and women above the eighth grade, of good moral character and of reasonably sound health, who are willing to live in harmony with its principles and standards. While no religious test is applied, all are required to attend church services and to show proper respect for the Scriptures. It is distinctly understood that every student who applies for admission to the College thereby pledges himself to observe all its regulations. If this pledge is broken, it follows that by such infraction he forfeits his membership in the school, and is retained longer only by the forbearance of the faculty. It is also a part of the student's contract that he, to the best of his ability, will perform all the industrial duties assigned him.

It is not the policy of this school to give employment to any individual who is not registered as a student.

REGISTRATION

Registration begins Monday, September 4, 1939, at 9:00 a.m. It is highly desirable that all students enter at the beginning of the school year. Those who enter late frequently find difficulty in selecting a satisfactory program and in making up back work. Regulations governing students entering late will be found on page 24.

COLLEGE ENTRANCE REQUIREMENTS

Graduates of four-year accredited secondary schools presenting official transcripts will be granted entrance to the junior college courses, provided specific course requirements are met.

Graduates of unaccredited schools presenting official transcripts of at least sixteen acceptable units and meeting specific course requirements, may qualify by passing entrance examinations.

Students entering college are expected to possess a knowledge of the fundamentals of English. Those who upon examination prove deficient in this respect, will not be allowed to continue in the class in College Rhetoric unless they enroll also in the class in Introductory English, for which no credit is given but the regular charge for tuition is made. They must complete satisfactorily the latter course before they can receive credit for College Rhetoric.
Students planning to enter this college for the first time should request the principals of schools previously attended, to send a transcript of all grades direct to the Registrar of Southern Junior College in ample time to be evaluated before the opening day of registration. Failure to do so may result in delayed registration and unsatisfactory classification.

Blanks for this purpose will be furnished upon request. All transcripts become the property of the school.

Upon the completion of a course, a statement of the final grade is issued without charge. If additional copies of the transcript are requested, there will be a charge of one dollar for each one issued.

Students who have not made satisfactory financial arrangements with the treasurer for the payment of their accounts, will not be permitted to write midyear or final examinations, nor will a diploma or grade transcript be issued until all school bills have been paid.

**STUDENT LOAD**

Four units each in grades nine and ten, and four and one-half units each in grades eleven and twelve of the College Preparatory Department, and thirty-two semester hours in the Collegiate Department, constitute full work for a school year of nine months. Requests for more than full work may be made to the Registrar, but not more than five units in the College Preparatory Department, nor thirty-six semester hours in the Collegiate Department will be allowed any student in an academic year of thirty-six weeks, nor will permission to carry extra work be granted to any student who has not maintained a B average in scholarship the preceding semester.

Students who must earn part of their expenses while in school should plan to deduct credit hours in proportion to the amount of labor performed each week.

Students who enter the College late will not be permitted to register for full school work.

**CHANGES IN CLASS SCHEDULE**

Students may change their program, upon approval, during the two weeks following registration.
A fee of one dollar must accompany a request for change of program after the first two weeks. The fee will be refunded if the request is denied.

No student shall enter or drop any class without presenting to the instructor of that class a permit from the Registrar. This permit must be countersigned by the instructor and returned by the student to the office of the Registrar. No student will be considered dropped from a class, and tuition will continue, until such a permit has been properly signed and returned. No grades will be recorded for a student who has not been properly registered in a course.

A course dropped without permission will be recorded on the permanent records as a failure.

A course dropped after the first nine weeks, unless on account of illness or other unavoidable circumstances, will be recorded as a failure.

ABSENCES ANDexcuses

Regular attendance at all school appointments is expected of every student.

Because of the difficulty of making up lost work, permission to be absent from classes is given only for urgent reasons. Unexcused absences just before or after regular holidays will carry double penalty.

On the first day of his return to school, a student should present his excuse blank, properly signed, to the Registrar, for approval. Failure to present this blank by the close of the first day of attendance involves penalty of unexcused absence.

For three unexcused absences occurring in any one semester, students will be required to pay one dollar in cash, or to perform five hours of labor without compensation.

If the number of absences of a student from any class exceeds fifteen per cent of the total appointments for a semester, he will forfeit his grade in that class. The student may apply for exemption from this rule in case of serious illness or for other causes not under his control.

GRADE REPORTS

Reports of scholarship are made in duplicate to parents and students at the close of each school period of six weeks. All semester grades are permanently recorded by the College for future reference.
The following system of marking is used: A, superior; B, above average; C, average; D, below average; E, delayed credit; F, failure; W, honorable withdrawal; DW, dishonorable withdrawal. A passing grade in group work—such as orchestra and chorus—is recorded as a C.

Unless acceptable explanation, such as serious illness, can be given, a student whose work is reported unsatisfactory in two or more classes within any school period, may be asked to withdraw from school. In some cases reclassification may meet the emergency.

QUALITY POINTS

Three quality points are given for each semester hour or unit of credit for an A grade, two quality points for a B grade, and one quality point for a C grade. D grade carries no quality points. Students completing any junior college course of study must possess at least as many quality points as credit hours.

HONORS

College students whose record at the time of graduation shows no grade below B in regular class work, will be granted "Honors" diplomas.

CREDIT EVALUATION

A "unit" is defined as the amount of credit granted for one subject satisfactorily pursued during a year of thirty-six weeks, with forty-five-minute recitation periods, five days a week, or the equivalent.

A "semester hour" represents the credit granted when a subject is successfully pursued through a semester of eighteen weeks with one sixty-minute hour of recitation a week.

DELAYED CREDIT GRADES AND EXAMINATIONS

A student who redeems a delayed credit will receive a grade of D, unless otherwise voted by the faculty.

A delayed credit grade becomes a failure if not removed within one year.

A fee of one dollar is charged for all special examinations. Instructors may give such examinations only upon evidence of properly signed receipts.
AUDITING CLASSES

A student may audit a course only by special permission. No credit is given for courses audited; the tuition charge is one-half that of regular credit courses.

PHYSICAL EDUCATION

Each year a course in physical education is required of all students, except those excused by certificate of a physician.

CORRESPONDENCE WORK

Because of the position taken by the Southern Association of Colleges and Secondary Schools and by the State of Tennessee with respect to approved institutions accepting correspondence credits, Southern Junior College is not in position to accept such credits.

EXTENSION COURSES

Southern Junior College offers no extramural instruction; therefore, all work for which credit is given must be completed in residence.

EXTRA-CURRICULAR ACTIVITIES

The extent to which students may participate in extra-curricular activities is subject to definite regulation, in order to encourage students in maintaining satisfactory standards of scholarship.

REQUIREMENTS FOR GRADUATION

1. The minimum requirement for graduation from the College Preparatory department is sixteen units, part of which is prescribed and part of which is freely elective. Details of the courses offered may be found under the Summary of Courses. The minimum requirement for graduation from Junior College courses is sixty-six semester hours, including two hours of physical education.

2. Quality points equal to the number of semester hours of work covered will be required for graduation from any junior college course. These quality points are granted as follows: For a grade of A, three quality points; for a grade of B, two quality points; for a grade of C, one quality point; for grades below C, no quality points. College students must
maintain an average of C or better in order to be eligible for graduation. College Preparatory students must maintain an average of C in order to be recommended for college.

3. College students whose record at the time of graduation shows no grade below B in regular class work, will be granted "Honors" diplomas.

4. The year preceding a student's graduation must be spent in study at Southern Junior College. At least three units or twenty-four semester hours of credit must be earned in residence.

5. No credit toward graduation is given for one year of language.

6. Transcripts of all courses completed in other schools must be on file before a student's work can be checked for graduation. College entrance requirements must be met as a prerequisite for the completion of any college course.

7. Credit toward graduation will not be given for partially completed courses.

8. No student may enter the graduation class later than April 2.

9. All resident candidates for graduation must be members of the senior class.

10. Since the institution has but one graduation exercise a year, at the end of the winter session, candidates completing their requirements in the summer will be graduated the following spring.

JUNIORS

No student will be admitted to the junior class who will lack, upon completion of the classes for which he is then registered, more than five units or thirty-six hours of finishing his course.
COURSES OF INSTRUCTION

The following pages list the courses offered in the various departments of this College. Not all courses, however, are given each year. The number of recitations each week is the same as the number of hours of credit listed for each semester, unless otherwise stated. Courses bearing double numbers (like 1-2) are year courses, and must be continued throughout both semesters.

AGRICULTURE

1. Field Crops.
   Includes a survey of the characteristics, adaptations, culture, and uses of the more important crop plants of the farm. One semester. Three hours.

2. Soils.
   Includes origin, chemical and mechanical composition, and classification of soil material; soil, air, moisture, texture; effect of climate, organic matter, lime fertilizers, tillage, upon the physical properties of soils. General Chemistry should precede or parallel this course. One semester. Three hours.

BIOSCILogy

   Open to all college students but especially designed for students looking forward to nursing, dietetics, and home economics. The study includes the structure and functions of tissues, organs, and systems in the human body. Two hours recitation; three hours laboratory. Two semesters. Six hours.

3-4. Bacteriology.
   A study of the fundamental principles of microbiology, introducing the control of disease; immunology; and serological procedures. One hour recitation; three hours laboratory. Two semesters. Four hours.

5-6. General Zoology.
   An introduction to fundamental biological phenomena and principle; a thorough study of some typical invertebrates; and the comparative anatomy of vertebrates. Three hours recitation; four hours laboratory. Two semesters. Eight hours.

BUSINESS ADMINISTRATION

   Introduction to accounting, books of original entry; ledgers; trial balances; profit and loss statements; partnerships; corporations; business forms and papers; controlling accounts. Two hours recitation and three hours laboratory. Two semesters. Six hours.
3. Advanced Accounting.

A course in advanced theory of accounting. Problems of single entry, preparation of working papers, balance sheets, and profit and loss statements; advanced partnership and corporation problems; valuation of assets; depreciation; reserves and reserve funds; sinking funds; consignment and installment accounting. Prerequisite, Business Administration 1-2. One semester. Three hours.

General principles and importance of cost records; classification of costs; job order and process accounting; accounting for materials, labor and manufacturing expense; preparation of analytical statements. Prerequisite: Business Administration 1-2. One semester. Three hours.

5. Principles of Economics.

A survey course in the fundamentals of economics; the institutions, forces, and factors affecting production, exchange, and distribution of wealth in modern industrial countries. One semester. Three hours.

A course dealing with some of the vital problems of modern economic life in connection with the concentration of industrial and labor power; public utilities; agriculture; money and banking; government finance; and foreign trade. Recent legislation in each of these fields is reviewed and analyzed. One semester. Three hours.

8. Consumer’s Economics.

A course, open to the non-Business student, devoted to the analysis of economic institutions from the consumers’ viewpoint. Particular attention is given to the relation of the consumer to advertising; adulteration of products; installment selling; monopolistic practices; government economic and revenue policies. The student is made familiar with various agencies for consumer protection. One semester. Two hours.

A survey course of the principles of law governing business transactions. Some of the subjects studied are contracts, agency, negotiable papers, partnerships, corporations, and sale of personal property. One semester. Three hours.

A survey course in the organization and management of a business enterprise. Study is given to the production and marketing of a product; the financing of a business; and the control of a business through budgets and the analysis of accounting data. One semester. Three hours.
A thorough study of the theory of Gregg Shorthand. A knowledge of this subject may be of value in at least four different ways: for taking notes of lectures, sermons, and class assignments; a mental drill; a stepping stone to a position such as that of editor, teacher, or business manager; or as a life work. Actual dictation and accurate transcription required at satisfactory speeds. Five recitations a week.

Two semesters. Eight hours.

A course designed for those who have mastered the principles of Gregg Shorthand. It is based on an activity program which provides practical experience in actual office problems. Particular attention is given to improvement in transcription and letter style; preparation of manuscripts and reports; filing; job analyses; and business ethics. Prerequisite: Business Administration 11-12.

Two semesters. Six hours.

Theory and practice of touch typing is taught. Secretarial and business typing are studied and practised in required work. Mimeographing is given a prominent place in the course. Three recitations; five laboratory periods a week.

Two semesters. Four hours.

CHEMISTRY

1-2. Inorganic Chemistry.
An introduction to the elements and their principal compounds; the fundamental laws and accepted theories of chemistry. This course is designed to meet the needs of the premedical and science student. Three hours recitation; four hours laboratory.

Two semesters. Eight hours.

3. Qualitative Analysis.
A study of methods for the separation and identification of inorganic ions; analysis of several unknowns. One hour recitation; three hours laboratory. Prerequisite: Chemistry 1-2.

One semester. Two hours.

4. Quantitative Analysis.
This course includes the study of typical volumetric and gravimetric methods, quantitative determinations of acidity, alkalinity and percentage composition of a variety of unknowns. Prerequisite: Chemistry 3.

One semester. Two hours.

5-6. Organic Chemistry.
A survey of the aliphatic and aromatic compounds of carbon. The laboratory includes typical organic syntheses. Especially designed for premedical and science students. Two hours recitation; four hours laboratory. Prerequisite: Chemistry 1-2.

Two semesters. Six hours.
7-8. General Chemistry.
A survey course designed to familiarize the student with the basic principles of chemistry. Attention is given particularly to solutions, chemistry of nutrition, digestion, and metabolism. A course for students looking toward nurses' training. Two hours recitation; three hours laboratory. High School Chemistry is highly desirable.

Two semesters. Six hours.

EDUCATION

1. General Psychology.
An introduction to the study of the problems of human behavior and conduct, including the mental processes and their development. The aim of the course is to acquaint the student with the fundamental laws on which the educative process is based, and to open up to him the possibilities of scientific education.

One semester. Three hours.

2. Educational Psychology.
A continuation of Education 1, with special emphasis on the application of psychology to the problems of teaching, including such topics as motivation, learning, transfer, individual differences, and the measurement of achievement.

One semester. Three hours.

3. Introductory Geography.
A study of the mutual relationships between man and major elements of natural environment with special emphasis upon types of climate and some of the adjustments which man makes to climatic conditions in selected regions.

One semester. Three hours.

4. Geography of Europe.
A study of the physical environments and their relation to economic, political, and social developments in the various regions of Europe.

One semester. Three hours.

5. Principles of Education.
A study of the fundamental principles of the process of education, character building, and efficient citizenship.

One semester. Three hours.

A study of methods and materials essential to the successful teaching of three language arts: oral and written composition, spelling, and penmanship.

One semester. Three hours.

8. Teaching of Reading.
In this course a study is made of the problems involved in the teaching of reading in all grades of the elementary school. Some time will be devoted to a study of literature for children.

One semester. Three hours.
A course dealing with the aims, principles, methods and materials involved in
the successful teaching of arithmetic. An effort is made to bring each student up to
a desired skill in the use of arithmetical principles and processes.
One semester. Two hours.

10. Teaching of Bible.
A study of subject matter and methods to be used in the teaching of the Bible to
children in the elementary schools.
One semester. Two hours.

11. Technique of Teaching.
A course designed to give the prospective teacher a working knowledge of the
principles and procedures of teaching in an elementary school. Opportunity is given
for observation in the Training School.
One semester. Three hours.

12. School Hygiene.
This course is designed to familiarize the student with problems of hygiene in the
school and the community.
One semester. Two hours.

This course familiarizes the student with the nature materials of his immediate
environment, and presents methods of making such material of vital interest in the life
of the child.
One semester. Two hours.

A course designed to prepare teachers to give instruction in music in the elementary
grades. Consideration will be given the following topics: the child voice, rote songs,
sight reading, treatment of monotones, music appreciation.
One semester. Two hours.

This course presents methods of teaching sewing, cooking, and woodwork in
grades five to eight.
One semester. Two hours.

18. Art.
A course designed to aid the teacher in presenting art instruction in the grades.
Topics: free-hand pencil drawing, crayola work, cardboard construction, clay
modeling, water colors, perspective, design, picture study, blackboard sketching.
One semester. Two hours.

This course includes the teaching of classes in the Training School, the observation
of lessons taught by the supervisors, the study and measurement of children as individ-
uals and in groups, meeting with the supervisors of directed teaching and with the
Director of the Training School.
Two semesters. Four hours.
ENGLISH LANGUAGE AND LITERATURE

1-2. College Rhetoric.

Intensive study of the fundamentals of English grammar and usage, the principles of effective composition, required outside reading and class study of literary models, regular practice in the writing of various types of themes.

At the end of the first six weeks of each semester, all students in this class must take a qualifying examination in English fundamentals, based on material that has been reviewed previously. Students who fail this examination are not allowed to continue in the class unless they enroll in the course in Introductory English. Credit for the semester's work in College Rhetoric will not be given until the student completes satisfactorily the course in Introductory English. Two semesters. Six hours.

3-4. Introductory English.

This course is required of those who prove deficient in the fundamentals of English grammar and usage, and are unable to attain the standard required for passing the course in College Rhetoric without more intensive drill than is provided in that course. The class meets two hours a week during the last eleven weeks of each semester. Students are allowed to add this course to a full program. Tuition is charged at the rate of one hour per semester, but no credit is given for the course.

5-6. Survey of English Literature.

A study of selected masterpieces and of the literary history by periods, authors, representative works, and literary types. Lectures, anthology, collateral reading, and class reports. Two semesters. Six hours.

7-8. Advanced Composition.

Advanced work in the special techniques of descriptive and expository writing, the essay, the preparation of manuscript for the press, and proof reading. Two semesters. Four hours.

HEALTH EDUCATION

Fundamental, scientific laws governing health and hygiene; application of principles of health and personal hygiene in daily living habits. Two semesters. Two hours.

3-4. History of Nursing.

Introduction of pre-nursing student to the long and splendid history of nursing and to the great leaders who have established its traditions and ideals; practical methods of studying with application to the mastery of the art of nursing—theory and practice. Two semesters. Four hours.
5-6. Physical Education.

The purpose of this course is to familiarize the student with the fundamental principles governing the development and maintenance of a well poised physique; to correct certain anatomical defects prevalent among young people, and to provide an opportunity for wholesome recreation.

Two semesters. One hour.

HISTORY AND SOCIOLOGY

A general survey of the history of Europe from the Roman Empire to modern times, with major attention to the social, cultural, economic, and religious interests and movements. The decline and fall of Rome, the rise of the Papacy, the Holy Roman Empire, the crusades, the development of Western European nations, the Reformation, the French Revolution, and the World War with its results, will be studied.

Lectures, reports, and parallel reading.

Two semesters. Six hours.

3-4. Survey of Ancient History.

A study of the historical background of the Old Testament in the light of the results of recent research and excavations in the valleys of the Nile, Euphrates, and Tigris rivers, which throw new light on historical hypotheses and confirm the Scriptural record. A brief survey is also made of the history and institutions of Greece.

Two semesters. Six hours.

5-6. Constitutional History.

This course traces the building with English and colonial elements of the basic principles of American government, the framing and adoption of the Federal Constitution, and its later development. Fundamental constitutional rights are considered.

Lectures, reports, and parallel reading.

Two semesters. Two hours.

By class discussion and the use of current literature, this course will acquaint the student with the inter-relation and significance of the major events and movements of the present day.

Two semesters. Two hours.

9-10. American History.

This course traces the rise of America, with due emphasis upon the colonial background, and upon the great figures of early America. The outstanding events of each president’s administration will receive careful attention.

Lectures, reports, and parallel reading.

Two semesters. Six hours.

12. Sociology.

A study of man’s relation to society, dealing with such topics as the family, making a living, education, industry, and religion, and their influence in developing society.

One semester. Three hours.
SOUTHERN JUNIOR COLLEGE

HOME ECONOMICS

1-2. Foods and Cookery I.

A study of the chemical and biological standards used in the selection, preparation and service of foods. Laboratory practice in the basic principles of cookery. Two hours recitation; three hours laboratory.

Two semesters. Six hours.

3-4. Clothing I.

An elementary course in selection and buying of clothing; fundamental principles of garment construction; color design; psychology of dress. Two hours recitation; three hours laboratory.

Two semesters. Six hours.

5. Household Economics.

A study of modern household equipment, marketing, budgeting and general home management.

One semester. Two hours.

LANGUAGES

1-2. Spanish I.

A foundation course in grammar, pronunciation, and reading designed to develop the ability to read and understand easy Spanish prose.

Two semesters. Eight hours.

3-4. Spanish II.

A course in which approximately two hours are devoted to a review of the fundamentals, with additional grammar and composition; two hours to the history of the politics, art, and literature of Spain; and two hours to the reading of standard works. With the exception of the work in grammar, the class discussions are carried on in Spanish.

Two semesters. Six hours.

5-6. French I.

A foundation course in grammar, pronunciation, phonetics, and reading, with a view to developing the ability to read and understand easy French prose and to carry on simple discussion.

Two semesters. Eight hours.

7-8. French II.

A course in the review of the fundamentals with additional grammar, composition, and reading of graded French books of increasing difficulty. Special emphasis is placed upon oral work. Provision is made for those majoring in science to do some of the required collateral reading in French scientific readers.

Two semesters. Six hours.
9-10. Greek I.
A thorough study of elementary New Testament Greek grammar, building a vocabulary, and the mastery of the regular verb. Special attention is given to the Greek participle. Extensive exercises in translation are required, and a portion of John’s Gospel is read. Macken’s "New Testament Greek for Beginners" is the basic text.

Two semesters. Eight hours.

11-12. Greek II.
A thorough grammar and vocabulary review, followed by the translation of I John and selected chapters in John, Revelation, Luke, and Acts. Constant parsing is required. Some problems of textual criticism are studied, and a familiarity is gained with the works of G. Adolph Deissman, A. T. Robertson, and others.

Two semesters. Six hours.

MATHEMATICS

1. Plane Trigonometry.
Trigonometric functions; solution of right and of oblique triangles by natural functions and by logarithms; graphic and analytic treatment of trigonometric functions, inverse and exponential functions; trigonometric identities and equations; applications to surveying, astronomy, mechanics, and navigation. Prerequisite: Geometry.
One semester. Three hours.

2. College Algebra.
The algebraic number system, including complex numbers; variations; rational functions of first, second, and higher degrees with geometrical interpretations; derivatives; maximum and minimum; theory of equations; partial fractions; linear systems and determinants; permutations, combinations, probability; conic sections; theory of exponents; exponentials; applications to physics. Prerequisite: Trigonometry.
One semester. Three hours.

Rectangular, oblique and polar coordinates in the plane; the relation between a curve and its equation; the algebra of a pair of variables, and the geometry of a moving point; straight lines; conic sections; and certain other curves. Prerequisite: College Algebra.
Given on Demand.
One semester. Three hours.

Rectangular and oblique coordinates in space; lines, planes, and surfaces of revolution. Prerequisite: Plane Analytics.
Given on Demand.
One semester. Three hours.

5. Differential Calculus.
Infinitesimals; variation; differentiation of algebraic and transcendental functions; interpretation of the successive derivatives with applications to physics; differentials; partial derivatives. Prerequisite: College Algebra.
Given on Demand.
One semester. Four hours.
6. Integral Calculus.

Integration of algebraic and transcendental functions; summation; geometrical and physical interpretation; series; successive integration; simple differential equations. Prerequisite: Differential Calculus. Given on Demand. One semester. Four hours.

MUSIC

1-2. Harmony and Composition.

Major and minor scales, intervals, primary and secondary triads in their inversions. The dominant seventh and its inversions, harmonizing melodies, the larger chord formations, supertonic harmony, modulations, and original work. At least one year of piano is prerequisite. Two semesters. Six hours.

3-4. Counterpoint.

The association of two melodic lines, rhythmic diversity, two notes to each beat, modulations, three notes to each beat, syncopation, four notes to each beat; motive development, three and four part harmony. One year of piano is required before entrance. Two semesters. Four hours.

5. Sightsinging.

Fundamentals of music, reading in all keys. Class meets two hours each week. One semester. One hour.

6. Conducting.

Principles of conducting congregational music. Class meets two hours each week. One semester. One hour.

This course deals with the development of music from its early beginnings to the present day. Music Appreciation will be woven into the class instruction. Two semesters. Four hours.

Piano

Private instruction is adapted to the needs of each student. Graded course will be followed with examinations to cover prescribed work. Student recitals at frequent intervals.

Voice

Posture, correct breathing, diction, tone production, songs, interpretation.

Violin and Other Instruments

Instruction on the violin and wind instruments is also offered. Regular courses of instruction are followed.
Men's Chorus and Women's Chorus
  Membership depends upon satisfactory audition with the director. Sacred songs of the better composers are used.

College Choir
  A select group will comprise membership. Sacred songs for church use.

Orchestra
  Membership for those who are able to play an instrument sufficiently well to be admitted. Two public programs each year.
  Various musical ensembles function throughout the school term.

Applied Music Credit.
  Piano, Voice, Violin, and Other Orchestral Instruments.
  One semester hour for one lesson a week with four hours practice.

Two Semesters. Two hours.

Two semester hours for two lessons a week with eight hours practice.

Two Semesters. Four hours.

Music Organizations
  One semester hour will be the maximum which may be earned in this field in one year, even though a student participate in more than one musical organization.
  College credit will be granted only to those who, in the judgment of the music department head, have had sufficient background—a maximum of six hours in either applied or theoretical music, not more than ten hours in both.
  The six hours of applied music may include credit for two hours in music organization. Not more than one hour may be earned in any one year.
  All grades for group work in music will be recorded as C.

PHYSICS

1-2. General Physics.
  An advanced study of the mechanics of solids, liquids, and gases; properties of matter and its internal forces; wave motion and sound; heat; magnetism; electrostatics; current electricity; alternating current theory; communication; radio activity; light.
  Three hours recitation; four hours laboratory. Prerequisite: Trigonometry. High School Physics is advised.

Two semesters. Eight hours.

3-4. Practical Electronics.
  Fundamental electrical principles; alternating currents and high frequency; vacuum tube theory and design; fundamental vacuum tube circuits; radio receiver theory and design; transmitter theory and design; test instruments; fundamentals of cathode ray television; wave fundamentals and radiation; industrial and medical uses of vacuum tubes; relay applications. Prerequisite: High School Physics.
  Given on Demand.

Two semesters. Four hours.
SOUTHERN JUNIOR COLLEGE

RELIGIOUS EDUCATION

   A comprehensive historical survey, emphasizing the literary and spiritual values of the Old Testament, designed for those who have not had preparatory Bible.
   Two semesters. Four hours.

   Similar to the preceding course except that the New Testament is studied.
   Two semesters. Four hours.

5. Advanced Bible Doctrines.
   Those doctrines of the Holy Scriptures are stressed which are vital to Christian experience and which distinguish Christianity from other religions. Emphasis is placed upon the ethical implications of religious belief. This course is especially valuable for those who plan to enter Christian service. Because of its advanced nature, a minimum of two years of preparatory Bible is highly desirable.
   One semester. Three hours.

6. Advanced Bible Doctrines.
   A continuation of the preceding course.
   One semester. Three hours.

7. Daniel.
   This Old Testament apocalypse is studied verse by verse to get the lessons applicable to the present day. Unrestricted class-discussion of all points is encouraged. Considerable attention is given to the Introduction; modern theories regarding the time, place, and authorship of the book are evaluated in the light of the best recent scholarship. This course offers an excellent opportunity for students to learn and apply correct methods of historical research.
   One semester. Two hours.

8. Revelation.
   The Book of Revelation is studied in its entirety. Correct methods of interpretation are stressed; its deep spiritual values are searched and applied. Due emphasis is placed on those fundamental truths of the book which have always been prominent in the characteristic message of Seventh-day Adventists. There is cultivated a reverent and scholarly reserve regarding the exact details of unfulfilled prophecy, and an attitude of Christian tolerance toward those who hold varying opinions regarding non-essentials.
   One semester. Two hours.

SPEECH

1. Public Speaking.
   The development of personal power through oral interpretation of masterpieces of literature, and through preparation and delivery of addresses; correction of mannerisms; development of effective mental, physical, and vocal habits of speaking and reading.
   One semester. Two hours.
2. Public Speaking.

A continuation of the preceding course, which is prerequisite to this.

One semester. Two hours.

3-4. Expression.

This work is planned with a two-fold purpose: The first is the development of the speaking voice for private as well as public conversation; the second is the development of technique in voice, gesture, and poise for platform and public reading.

Breath control, musical quality of voice and tone, systematic training for careful articulation, audibility, volume, reading of verse and prose, are some of the fundamentals in this course.

At least one formal night recital is held each semester.

Two semesters. No credit.
## SUMMARY OF CURRICULUMS

Students who are preparing for the ministry, or who are planning to complete a four-year Liberal Arts Curriculum with majors in English, history, or language, should register in the Associate in Arts Curriculum.

At the time of registration, students will be guided in the choice of electives by counsel with the Registrar and the teachers concerned.

Students presenting credit for two years of high school French or Spanish need take only one additional year in the same language.

Students having two years of ancient language only, will take two years of modern language.

*The student is required to select at least one six-hour course from the following group: History, survey of English literature, economics, psychology, principles of education.*

*In addition to the science studied during the first year, the student is required to select six hours of work from the following group: General chemistry, zoology, physiology, mathematics, physics, organic chemistry, bacteriology. It is recommended that the student’s total work in science include one full year course of at least six hours in each of two of the following broad fields: Biological science, physical science, mathematics. It is generally advisable for the student to select a further six hours from one of the foregoing groups.*

*Special permission may be granted for a different selection of electives. As a general rule, however, such permission should not be granted to students who plan to attend a senior college and finish a course in the arts and sciences. Such permission may be granted for definite reasons to those students who do not plan to proceed beyond the fourteenth grade.*
## BUSINESS ADMINISTRATION

### DENOMINATIONAL CERTIFICATION

A student finishing the teacher-training curriculum as outlined, is granted a diploma and, upon recommendation of the director of teacher-training, will receive a professional certificate valid for five years. A graduate holding this diploma and certificate may, after three years' teaching, receive a life certificate, provided his teaching has been satisfactory, and the Union Conference secretary in whose territory the teaching has been done so recommends.

Students who are preparing for medicine, dentistry, nursing, dietetics or home economics, and science majors, should register in the Science Curriculum.

Students preparing for medicine will elect mathematics, six hours; zoology, eight hours; physics, eight hours; constitutional history, two hours.

Pre-medical students having no foreign language credit must take fifteen hours in French and present seventy-three semester hours of credit for graduation.

Students presenting credit for two years of high-school French or Spanish need take in college only one additional year in the same.

Students having two years of ancient language only, will take two years of modern language.

Students preparing for nursing will elect physiology, six hours; bacteriology, four hours; history of nursing, four hours; health principles, two hours.

Students preparing for dietetics will elect constitutional history, two hours; economics, three hours; foods and dietetics, six hours; physiology, six hours; principles of education, three hours; psychology, three hours; sociology, three hours, accounting, three hours.
Southern Junior College

Preparatory School

1939-1940

ACCREDITED WITH
Tennessee Department of Education
Seventh-day Adventist Board of Regents
Southern Association of Colleges and Secondary Schools
There is maintained as a separate department of the College a preparatory school corresponding to the four years of the standard high school. Students who are admitted to the College departments must complete a preparatory course as outlined below, or must present evidence that they have completed a four-year course in an accredited high school. Students whose preparatory work has been taken in unaccredited schools will be required to write entrance examinations as prescribed by the College.

BIBLE

Bible I—Early Church History.

Bible II—Ancient Hebrew History.
Deals with the history and literature of the Hebrew race from creation to the end of the Babylonian captivity, as set forth in the Old Testament Scriptures. Two semesters. One unit.

Bible III—Denominational History and Christian Ethics.
An elementary study of the great epochs and movements of church history, with special attention to the rise and development of the Seventh-day Adventist denomination, followed by a study of social ethics from the Christian viewpoint. Mrs. E. G. White's "Messages to Young People" is the basis of this latter work. Two semesters. One-half unit.

Bible IV—Bible Doctrines.
Sets before the student a clear, concise outline of the fundamental doctrines of the Bible. Special attention is given to the unity or harmony of the doctrines taught in both the Old and the New Testament. Two semesters. One-half unit.

COMMERCE

Bookkeeping.
This course begins with the rudiments of the subject, and develops step by step into double-entry bookkeeping. The pupil becomes familiar with the use of receipts, checks, notes, drafts, and invoices. He learns how to journalize and explain transactions; to post from journal and cash book to ledger; to take trial balances; to make out financial statements; and to close and rule ledger accounts. Five recitations, five laboratory periods. Two semesters. One unit.
COLLEGEDALE, TENNESSEE

General Business.
A course in general business training designed to yield the following outcomes: ability to handle personal business affairs; more satisfactory choice of a vocation; preparation for vocational study; try-out and exploratory experiences; social understanding; and civic intelligence.

Two semesters. One unit.

Typewriting.
Theory and practice of touch typing is taught. Secretarial typing is studied in detail.
Five recitations, five laboratory periods.

Two semesters. One unit.

ENGLISH

English I.
A review of English grammar, drill in correct English habits, the fundamentals of composition, frequent themes and speeches, class study of selected literary classics, and cultivation of the habit of reading worth-while books. Six lessons in the use of the library are included.

Two semesters. One unit.

English II.
A continuation of English I with the work more advanced in character. Six more lessons in the use of the library are included.

Two semesters. One unit.

English III.
The work in English III is devoted to the field of English literature, to oral composition, and to the elimination of fundamental errors in the use of language.
Collateral reading is required.

Two semesters. One unit.

English IV.
The greater part of this course is devoted to American literature with an outline survey of its history. The remainder is given to an advanced study of grammar and language structure, and oral composition. Collateral reading is required.

Two semesters. One unit.

HISTORY

World History.
This course is required of all students in the College Preparatory Curriculum. The aim is to introduce the student to a historical view of life. The great characters and movements of world history will be evaluated from the Christian point of view.

Two semesters. One unit.

American History and Problems of Democracy.
Consideration will be given to the important phases of our colonial and national governments, the principles upon which they were founded, the relations and functions of their various departments, and our individual duties and privileges as American citizens.

Two semesters. One unit.
HOME ECONOMICS

Home Economics I.
The house, its selection and care; home courtesies; personal grooming; selection and care of clothing; construction of simple garments; the normal diet; preparation and serving of breakfasts, suppers, and luncheons. Five double periods a week.

Two semesters. One unit.

Home Economics II.
The planning, preparation and serving of dinner; budgets and accounts; financing and care of the home; construction of an afternoon and a tailored dress; child care, invalid cookery. Five double periods a week

Two semesters. One unit.

INDUSTRIAL ARTS

Agriculture I.
This course includes recitations, lectures, supervised study, and general laboratory and field work. The subject matter of the first unit includes dairying, small fruit and vegetable gardening. The course affords practice in milk-testing and in judging dairy cows. Note books must be kept in which laboratory and field work is reported. Five double periods a week.

Two semesters. One unit.

Agriculture II.
The subject matter of this course includes field crops, animal husbandry, and poultry. Laboratory work will include seed selection, seed-testing, grading and inoculation, judging stock and poultry. Note books will be required. Five double periods a week.

Two semesters. One unit.

Manual Training I.
Includes drafting, cabinet work, and wood turning. Drafting: The use and care of drafting room equipment, lettering, conventions, projection drawings, and the making of blue prints. Cabinet work: The work will consist of some simple models involving the elements of joinery, besides a more elaborate piece of furniture which has been designed by the student and made from his own drawings. Wood turning: Simple spindle and face-plate turning including table legs, candlesticks, and trays.

Two semesters. One unit.

Manual Training II.
Continues the work of Manual Training I with the addition of simple carpentry. Drafting: Projection drawing, including sections and developments, isometric drawing, and plans and elevations for a simple building. Cabinet work: More difficult projects will be undertaken by students of the second year. Working drawings must be made by the student of all projects to be made in the shop. Wood turning: Advanced projects in face-plate turning, spindle turning, and projects involving the use of the chuck. Carpentry: Simple roof construction, window framing door construction, stair building, uses of the steel square, a brief study of lumbering, and estimating quantities and costs.

Two semesters. One unit.
Printing I.

A study of general principles, including proof reading, type calculations, straight hand and job composition. The laboratory work will consist of hand composition, with an introduction to the feeding of platen presses. It is expected that the student will develop speed and accuracy in composition work. Five double periods a week.

Printing II.

Composition of advertising, advanced job composition, a careful study of the care and operation of the platen press, locking up forms, imposition. The student is required to develop a satisfactory degree of speed and accuracy in platen press work. Five double periods a week.

LANGUAGES

Latin I.

A beginner's course in Latin. Drill in vocabulary, grammar, and syntax. Translation from English to Latin and Latin to English. Emphasis is placed upon the relation between the Latin and English.

Latin II.

The early part of the course is devoted to a review of principles of Latin I. Translation and drill in syntax.

Spanish I.

A beginner's course, with drill in grammar, principles of pronunciation, and easy reading.

Spanish II.

Review of fundamental principles, intermediate Spanish reading, and composition.

MATHEMATICS

Algebra I.

Prerequisite, the completion of eighth grade arithmetic. Fundamental operations integral equations; factoring, fractions; simultaneous equations with graphs; involution and evolution; theory of exponents; quadratics.

Algebra II.

A rapid review of the principles of algebra I; continuation of algebra to include surds, simultaneous quadratics, progressions, logarithms, infinite series, binomial theorem, permutations and combinations.
Plane Geometry.

Prerequisite: algebra I. The five books of plane geometry are covered thoroughly. A large number of original problems is required. Close attention is given to the logical development of every proof, and special emphasis is placed upon individual reasoning.

Two semesters. One unit.

MUSIC

Students who desire may select music as an elective in the College Preparatory Curriculum, but not more than two units will be accepted toward graduation. For credit in Music I in the College Preparatory Curriculum, the student must complete the following:

(a) Applied Music: Upon recommendation of the music director, a student may receive credit for piano, voice, or violin. A voice and violin student must have the equivalent of one year of piano, or be required to study piano during his Music I course.

(b) Music Theory: Four forty-five minute periods a week for thirty-six weeks. Music fundamentals and harmony.

(c) Either Orchestra or Chorus: One period of at least forty-five minutes a week for thirty-six weeks.

For credit in Music II in the College Preparatory Curriculum, the student must complete the following:

(a) Applied Music: An additional year of piano, voice, or violin—one lesson each week.

(b) Music Appreciation and History: Four forty-five minute periods a week for eighteen weeks. Harmony the second semester.

(c) Either Orchestra or Chorus: Two periods a week for thirty-six weeks.

SCIENCE

Biology.

The course in biology includes a study of the leading divisions in the animal and plant kingdom. An intensive study is made of typical representatives, and a more general study of related forms, with a view to discovering the chief characteristics of each division. The morphology and physiology of plants is stressed, and extensive experimental and microscopic work is required. In zoology a fairly complete life history of each type studied is presented, and includes: food habits, mode of locomotion, sense organs and nervous system, processes of digestion, circulation and respiration, environmental relationships. The adaptation of plants and animals to their surroundings is stressed throughout the course. Three recitations, two laboratory periods a week.

Two semesters. One unit.
Chemistry I.

This course should be elected by those students who plan to take nurse's training. An elementary course covering the chemistry of the common non-metallic elements, fundamental theories and laws of chemistry. Introduction to the chemistry of the common metals and their compounds. Three recitations, two laboratory periods a week.

Two semesters. One unit.

Physics I.

Prerequisite: algebra and plane geometry. This course is introductory to general physics, and consists of recitations, laboratory work, and classroom demonstration. The mechanics of fluids and solids, heat, molecular physics, sound, light, magnetism, and electricity are studied. Three recitations, two laboratory periods a week.

Two semesters. One unit.
# SOUTHERN JUNIOR COLLEGE

## COLLEGE PREPARATORY CURRICULUM

### Grade Nine
- **English I** 1
- **Algebra I** 1
- **Biology** 1
- **Early Church History** 1

### Grade Ten
- **English II** 1
- **World History** 1
- **Ancient Hebrew History** 1
  - Elect one unit:
    - *Home Economics* 1
    - Manual Training I 1
    - **Algebra II** 1
    - **Music I** 1
    - **Agriculture** 1

### Grade Eleven
- **English III** 1
- **Language I** 1
- **Geometry** 1
- **Bible III** ½
  - Elect one unit:
    - Home Economics II 1
    - Manual Training II 1
    - Music I or II 1
    - Printing I 1
    - Bookkeeping 1
    - General Business 1
    - Chemistry 1
    - **Physics** 1
    - Typewriting 1
    - Agriculture I or II 1

### Grade Twelve
- **English IV** 1
- **Language II** 1
- **American History and Problems of Democracy** 1
- **Bible IV** ½
  - Elect one unit:
    - Bookkeeping 1
    - General Business 1
    - Chemistry 1
    - Physics 1
    - Home Economics II 1
    - Agriculture I or II 1
    - Music I or II 1
    - Printing II 1

*Required of girls.

Physical Education is required each year.
It is essential that students make a careful selection of the elective courses which form a part of the College Preparatory Curriculum. The student should determine, if possible, by the beginning of the third year what his life work is to be, so that at the time of registration he can be advised what electives to choose in order to coordinate properly his preparatory course with the college work which he may plan to take later.

Students who do not seek college entrance may obtain a diploma upon completion of a curriculum of not fewer than seventeen units, of which four must be English. Electives may be selected from a wide range under counsel of the Registrar.
