COLLEGEDALE Medical Center

PROM the day when the Southern Training - School moved from Graysville to Collegedale o reopen as Southern Junior College there has een incorporated in the master plan a medical enter, a right arm to serve the college combunity and through which this community hight render physical and spiritual service to urrounding areas.

The project, which was designed by the rchitectural firm of Bianculli and Palm, will be uilt in three steps, according to the present lans, and is to serve the area which includes Collegedale, Ooltewah and Apison.

The unfolding of this dream began last pring when the Collegedale Clinic opened its loors. The Clinic is now paid for and well quipped. Dr. Van Blaricum has recently loated at Collegedale to become Medical Director of the Clinic. He brings with him a wealth of medical and surgical experience.

It is the hope and plan that by next spring a strong promotional program will be launched o change the name of the Collegedale Clinic o the Collegedale Hospital. Incorporated in his program will be the addition to present facilities of twenty patient beds, an operating room, diet kitchen and larger treatment room. Later it is the plan to add a sanitarium wing.

All Collegedale is behind this program believing in the many statements from the prophet of the Lord relative to colleges and sanitariums working hand in hand. We know that our alumni will rejoice with us.

CABINET SHOP PROVIDES NEW INDUSTRY

By CHARLES FLIMING, JR.

THL leadings of the Lord in mysterious ways are evident in all branches of His work including the establishment of industries on the SMC campus.

Three years ago when the new science building was under construction, the matter of tables, desks, and other furniture installations for the laboratories came up for consideration. The men in the science department of the College studied the various styles of equipment produced by the top manufacturers in this line, took the best features of each, combined these features with some ingenious ideas of their own, and drew the plans. The cabinets were made and installed by our cabinet shop.

When we were ready to order pews for the chapel in our Fine Arts building, we decided to make them in the cabinet shop. This was accomplished at a savings financially and certainly with no sacrifice of quality or design.

Since that time we have continued making both science and church furniture for other inst tutions. The volume of work, however, has been greatly limited due to our small space available in the engineering department.

About October 1, a friend of the College, learning of our needs for additional space to manufacture laboratory and church furniture, sent the College a gift of \$10,000 to cover the cost of constructing a new building.

The new building will be located between the present engineering building and the broom factory warehouse, and construction has already started on this new addition.

Opportunities for SMC Alumni

Southern Missionary College is the youngest of our senior colleges in North America, therefore, time has not elapsed for a large and strong Alumni membership to have developed. Those who have graduated from SMC have had a comparatively short time to have become established in positions from which they might offer strong help to their Alma Mater. But as we look at the records of the thousands and thousands of dollars received annually by certain institutions from their Alumni, we look forward to the time when substantial aid in the form of grants, wills, and scholarships will be received by Southern Missionary College from its Alumni and other admirers.

About a year ago determined efforts were begun and are continuing, to establish an Alumni Scholarship Fund which would make possible the education of some of the outstanding young people here in the Southern Union who need help.

The Alumni of The Graysville Training School, Southern Junior College, and Southern Missionary College should seriously consider the many students who need some financial help. All should plan to have a part in the aid that will be extended to worthy students on a loan basis. Each should work first through his local chapter, or if there is no chapter near, write to the president or secretary of the Alumni Association here at Collegedale. Our address is P. O. Box 1115, Collegedale, Tenn.

Permit us at this time to wish for you the very best under God for the New Year as we all join in giving thanks for the blessings of the past, PAUL C. BOYNTON,

President. Alumni Association

WOODSHOP MANUFACTURES NEW LINE OF FURNITURE

THE Collegedale Wood Products has for many years been the largest supplier of rk opportunities on the SMC campus, acding to general manager, Charles Fleming, From the time of its inception, the type of iduct manufactured has changed with chang-

; market conditions; back in 1928-29 the odshop first started volume production, at ich time most of the output consisted of een doors. Soon afterwards procedures were nged to accommodate the manufacture of ning boards, step ladders, and folding chairs; out eight years ago the line was changed in—this time to desks and chests.

During the past few months the production the shop has undergone a reorganization keep up with a changing economy. The p has departed from the low-priced, npetitive line of chests and desks to a smartstyled and better constructed line of twoe bedroom furniture. This new line boasts

SMC Remembers Her Own

The following Alumni have visited our campus this fall and left these comments in our guest book:

R. If. *Crawford* (1953) Southwestern Junior College, Keene, Texas.—We have just completed a very enjoyable vacation at our home in Northern Indiana and could not resist the temptation of visiting our many friends at SMC. It was like coming home. There is no other place like Collegedale. Our work at Southwestern Junior College has been most enjoyable. We have enjoyed visits from many friends from Collegedale as they passed our way,

Bill Dysmger (1951) CME, 312 N. Boyle Avenue, Los Angeles 33, California — Just stopping in for my yearly visit as I look over some possible internship hospitals. All's well in California, but I'll be ready to move back East!

Mable Mitchell (1953) 107-A Ponce de Leon Court, Decatur, Georgia—It's so nice to be back at dear Ole Collegedale, even if it is only for a week end. This is the first time in five years that I've missed being here for campmeeting the whole time. I still miss everyone.

Roland Parker (1953)—Happy to have been able to make at least a short visit to SMC. I have been studying at the Seminary, and will be there another year.

John Hiser (1952) 100 W. End Street, Fort Myers, Florida—It's very nice to be in Collegedale again; we have visited with many old friends. I am teaching in Fort Myers, Florida, and my wife will teach this year also.

Douglas Milliner

James R. Chambers. SJC '36: "I enjoy my work in the chemistry department here very much. Reports of the steady growth of SMC reach me from time to time, and I am glad to know the Lord is blessing 'our' school." Mr. Chambers is assistant professor of chemistry at Atlantic Union College.

Carol Jean W bidden, SMC 54, who is attending C.M.E. at Loma Linda, California, writes that life can really get to be a whirlwind in medical school. She sends word of the following SMC-ites: Mildred W bitaker is taking a laboratory course at Whit. Memorial Hospital; her address is 1818 New Jersey Street, Los Angeles, California. MEET OUR PRESIDENT

Dr. Thomas Walters, formerly educational superintendent and MV secretary of the Washington Conterence, has succeeded President Kenneth A. Wright as chief administrator of Southern Missionary College. President Walters is a graduate of Walla Walla College, College Place, Washington, and received his doctor's degree from Leland Stanford University in 1955 in the field of Education Administration.

After graduation from Walla Walla. Dr. Walters spent four years as dean of boys at Laurelwood Academy, Gaston. Oregon. In 1940 he was called to administrative work at Gem State Academy, Caldwell, Idaho, where he labored for four years before answering a return call to Laurelwood as principal for six more years of academy administration. Dr. and Mrs. Walters are the parents of two sons—Tom. aged 18, who is a Ireshman in the college. and 14-year-old Kenneth, an academy treshman.

May the Lord richly bless this family as they continue their service for the Lord at Southern Missionary College. But they were rich in three of the most precious of all human assets—courage, a will to work unceasingly, and boundless faith in God. They never breathed a word of pity for themselves. They felt an acute need only for strength to stay alive and carry on for themselves in order to satisfy the requirements of an intrinsic spiritual motivation.

We who live today, well fed, soundly protected, enjoying good environmental conditions cannot appreciate the situation under which this nation was founded. We who stay at home are equally unable to sympathize with our missionary alumni, but the world and the church is infinitely blessed because of your sacrifices, you who are building for tomorrow. As we are removed from your hardships, we are undoubtedly removed proportionately from your rich experiences.

The SMC faculty and student body who are carrying on in your place here at home base, salute you! May God richly bless you at this season, and please let us hear from you as time may permit.

THOMAS W. WALTERS President, SMC
