Southern Adventist University’s School of Education and Psychology professors strive to prepare every student for a life of service as a successful Christian professional. They realize that with so many forces competing for the attention of today’s young people, it can be difficult to actively engage college students in lecture classes.

To meet this challenge, our faculty are finding unique and effective ways to present core concepts. Psychology professors Cristy Pratt and Matt Tolbert are incorporating various innovative teaching strategies to engage their students in classes such as Personality Theories, Developmental Psychology, and Human Sexuality.

Professor Tolbert uses the “flipped classroom” technique, which dedicates class time to active group learning and moves the delivery of basic content online to eClass, which students access during personal study time. In his flipped classroom, Tolbert encourages student engagement through discussions, in either large or small groups, and by using videos to stimulate collaborative learning. He also assigns small, specific projects during class so that he can answer student questions and serve as a facilitator. (continued on page 3)
During the weekend of March 29-31, 2019, Southern’s counseling program hosted the Adventist Engaged Encounter for couples in the area who are dating, engaged, or newly married. Adventist Engaged Encounter is a weekend retreat that originated at Andrews University. The facilitators, Jeff and Twyla Smith, led out in workshops for the 18 couples in attendance, covering important subjects to support successful Christian marriages.

Throughout the weekend, these couples had an opportunity to discuss their views on each topic and how they can incorporate it into their lives. The couples attended the seminars, then spent private time together for personal reflection and sharing. Participants also enjoyed a relaxing agape feast which consisted of a variety of delicious fruits, cheeses and veggies. Additionally, as part of the Prepare/Enrich program, the couples were able to take an assessment to determine their areas of strength and growth. Prepare/Enrich gives couples the necessary training for a successful marriage.

Just as most professionals are required to take continuing education in order to stay competent in the field, married couples likewise need continuing education, such as this retreat, to stay successful.

This weekend also offered MS counseling students the opportunity to practice skills and tools unique to couple’s counseling. As part of the counseling program, our students have been working with the attending couples and reviewing their assessment results in order to help them further strengthen their relationships.

For more information about the counseling program, please contact gradcounseling@southern.edu.
Tolbert believes these changes are improving his students’ ability to not only apply concepts and develop meaningful relationships with their classmates, but also to enjoy the learning process. “I see students come to class who are excited and interested in discovering something new about their own minds,” he explains.

In her psychology courses, Professor Pratt uses strategies that increase participation to foster a positive classroom climate. For example, she incorporates competitive games such as Quizlet Live, which lets students use their phones or tablets to find an answer to a quiz question, and then displays the “score” of the top-ranked student or group. Pratt sees such social strategies as important for cultivating retention and comprehension among her students, since “remembering the classroom activity will allow for a deeper, more real understanding of the concepts.”

Education professor Krystal Bishop incorporates active learning simulations into her Foundations of Literacy and Principles of Teaching Reading courses. Her goal is to make the in-class experiences relevant to what her students will be doing in their own classrooms, while still respecting them as college students. Activities include co-creating lesson plans for elementary classrooms and developing a writer’s notebook. Her teacher candidates also conduct book chats with small groups of elementary students, which give them an opportunity to discuss books appropriate for the students’ developmental level. Professor Bishop says that later, while student teaching or as first-year teachers, many have expressed appreciation for the real-world techniques they learned during these classes.

Of course, graduate programs also benefit from our professors’ unique strategies. For instance, counseling professor Tami Navalon currently teaches Assessment and Appraisal. In addition to class discussion and dialogue, she designs hands-on activities and assignments that help students explore their own lives through the lens of what they are learning. Professor Navalon says, “I believe learning takes place when information is more meaningful to students, and when the information can be applied to their own lives.” The progress is evident in her students’ growing passion about what they are learning—and how they begin to view assignments as a joy instead of a chore.

Outdoor education professor Monty Murdoch includes intensive expeditions in his graduate-level classes. The outdoor education program includes traditional coursework as well as short summer-learning intensives, which typically put both students and the professor in the field for 10 days, 24 hours a day. Students visit different locations depending on the study topic.

Professor Murdoch enjoys using the “See one, Do one, Teach one” strategy, in which students learn theory, see it being used, and then develop materials to apply what they have learned. In this way, outdoor education students get comfortable working in an outside teaching environment and are able to practice using the skillset it requires.

Our School of Education and Psychology professors utilize methods they have learned from other educators, professional conferences, personal brainstorming, and even their own dreams. Innovative teaching techniques benefit not only the students, but also the professors who are creating and using them. Our teaching faculty enjoy being able to foster deeper relationships with their students while helping them achieve their goals for a life of service.

“Getting to know [my students] and getting to share a small part of their journey... is a privilege I treasure.”

-Tami Navalon

CONGRATULATIONS, MAY 2019 GRADUATES!

Jonathan Adels  
**Major:** MS School Counseling  
**Hometown:** Chattanooga, TN  
**Future Plans:** Become a school counselor

Antannia Aguilar  
**Major:** Psychology - Family Systems  
**Hometown:** Wilmington, NC  
**Future Plans:** Graduate school for school and clinical mental health counseling

Alexis Amaya  
**Major:** Psychology - Family Systems  
**Hometown:** Saint Paul, MN  
**Future Plans:** Take a gap year, then attend graduate school

Leah Clayton  
**Major:** Liberal Arts Education (Non-Licensure)  
**Hometown:** Orlando, FL  
**Future Plans:** Become an elementary school teacher

Carissa Blewett  
**Major:** Liberal Arts Education (Non-Licensure)  
**Hometown:** Higdon, AL  
**Future Plans:** Use my education skills in service for God, wherever He leads

Lindsey Bonilla  
**Major:** Psychology - Clinical  
**Hometown:** Fairfax, VA  
**Future Plans:** Work for AmeriCorps City Year DC, mentoring low-income students

Vanessa Bonilla Downs  
**Major:** Psychology - Clinical  
**Hometown:** Austin, TX  
**Future Plans:** Gain experience with struggling women and graduate school

Sonja Cartwright  
**Major:** Religious Education  
**Hometown:** Sacramento, CA  
**Future Plans:** Become a Bible teacher/high school chaplain

Leah Clayton  
**Major:** Liberal Arts Education (Non-Licensure)  
**Hometown:** Orlando, FL  
**Future Plans:** Become an elementary school teacher

Curtis Cooper  
**Major:** Psychology - Industrial/Organizational  
**Hometown:** Henryville, IN  
**Future Plans:** Graduate school

Courtney Day  
**Major:** Liberal Arts Education  
**Hometown:** Peachtree, GA  
**Future Plans:** K-2 Teacher at Shoal Creek Adventist School

Dina Derilas  
**Major:** MS Clinical Mental Health and School Counseling  
**Hometown:** Brooklyn, NY  
**Future Plans:** Work as a school counselor as well as mental health counselor

Natalie Diaz  
**Major:** Physical Education  
**Hometown:** Miami, FL  
**Future Plans:** Become a PE teacher/athletic director

Rachel Ferrel  
**Major:** Liberal Arts Education  
**Hometown:** Columbus, WI  
**Future Plans:** Become a K-2 teacher

Brianna Diaz  
**Major:** Liberal Arts Education  
**Hometown:** Orlando, FL  
**Future Plans:** Become the best teacher I can be in the state God chooses for me
Alex Gallimore  
**Major:** MS Clinical Mental Health Counseling  
**Hometown:** Orlando, FL  
**Future Plans:** Continue graduate studies in Data Analytics

Stacey Grant  
**Major:** MS School Counseling  
**Hometown:** Toronto, Canada  
**Future Plans:** Become a school counselor, teach, and complete PhD

Sarah Griggs  
**Major:** Religious Education  
**Hometown:** Grand Rapids, MI  
**Future Plans:** Get married and be a Bible/Math/Spanish teacher

Kyle Harris  
**Major:** History Education  
**Hometown:** Chattanooga, TN  
**Future Plans:** Pursue a career coaching football at the high school, college, or pro levels

Taylor Haugen  
**Major:** Liberal Arts Education  
**Hometown:** Orange County, CA  
**Future Plans:** Become an early elementary teacher

Tyler Hedges  
**Major:** Physical Education  
**Hometown:** Havre de Grace, MD  
**Future Plans:** Graduate school or teaching

Savannah Ivins  
**Major:** English Education  
**Hometown:** Centerville, TN  
**Future Plans:** Teach English, go to grad school, travel and enjoy life

Julia Jedamski  
**Major:** Psychology - Clinical  
**Hometown:** New Market, VA  
**Future Plans:** Graduate school, become an occupational therapist for special needs children

MAY 2019 GRADUATES

Jazmyne Page  
Major: MS School Counseling  
Hometown: Knoxville, TN  
Future Plans: Become a school counselor, complete Education Specialist degree

Morgan Parker  
Major: Psychology - Clinical  
Hometown: Atlanta, GA  
Future Plans: Graduate school and become a clinical neuropsychologist

Sarah Parris  
Major: Physical Education  
Hometown: Willemstad, Curacao  
Future Plans: Work as a PE teacher and become a soccer coach

Davida Phillips  
Major: MS School Counseling  
Hometown: Gary, IN  
Future Plans: Become an elementary school counselor

Jenifer Reiss-Watson  
Major: MSEd Instructional Leadership  
Hometown: Chelmsford, MA  
Future Plans: Continue teaching at Standifer Gap School in Chattanooga

Amy Risinger  
Major: MS Clinical Mental Health Counseling  
Hometown: Chattanooga, TN  
Future Plans: Travel abroad and work toward licensure, raise kids, get a goldfish

Ashton Rubaine  
Major: Psychology - Clinical  
Hometown: Southampton, Bermuda  
Future Plans: Graduate school

Jennifer Wheeler  
Major: Biology Education  
Hometown: Sheboygan, WI  
Future Plans: Become an educator at an aquarium and marine biologist

Leilany Velasquez  
Major: Psychology - Industrial/Organizational  
Hometown: Chattanooga, TN  
Future Plans: Earn my master's degree and become a traveling consultant

Kara Wait  
Major: Elementary/English Education  
Hometown: North Carolina  
Future Plans: Become a teacher. Sky's the limit!

Jennifer Reiss-Watson  
Major: MSEd Instructional Leadership  
Hometown: Chelmsford, MA  
Future Plans: Continue teaching at Standifer Gap School in Chattanooga

EDUCATION ALUMNI UPDATE: Steven Arauz

“If I can help contribute to making people happy, then I've found my life's purpose.”
- Steven Arauz

A n elementary education graduate of 2012, Steven Arauz's journey after Southern is nothing short of amazing. After graduation, Arauz spent a year as a student missionary teaching in Madrid, Spain, and then taught in Daytona Beach, Florida. As a 26-year-old single with a maintenance-free condo and his summers free, he had time to travel to both India and Africa with World Vision, a humanitarian aid organization, but he couldn't help wondering if there was more to life.

To find out, Arauz decided to respond to an urgent need in Florida for foster-care parents. He took a training class four year ago and began taking in foster kids, including one who became his adopted son in April of 2016. Now Arauz works at Forest Lake Education Center in Longwood, Florida. He teaches both Bible and social studies to approximately 80 students who are in the sixth grade. In his social studies class, he covers social justice topics such as race, immigration, and religion and challenges his students to come up with solutions to real-world issues.

Arauz considers teaching the best choice he's made in his career, and he is confident that God called him to ignite and explore students' imaginations and ideas. He also enjoys getting to know their families through service projects they can do together, such as sorting food, donating clothing for children and serving the homeless. In addition to his leadership responsibilities at the school, Arauz is active in the Central Florida foster care community. As a single dad, he has fostered 10 children and is helping to recruit other “nontraditional” foster care parents to respond to what has become a critical social need. In foster training classes, Arauz talks candidly about his experiences, and he also leads a foster care ministry at the Florida Hospital Seventh day Adventist Church. He has been featured in The New York Times and in many other local newspapers and magazines about his experience in adopting Quinton, who was one of his fourth-grade students in Daytona Beach and is now 14 years old.

Arauz attributes his leadership skills to the training he received at Southern, where he learned to lead by example. “If I expect something to be done, I must first be able to do that myself,” he said. Eager to help his students create a productive future, Arauz appreciates that he was taught the value of reaching others and ministering through education. Southern's teacher training program helped him understand people, he says, and how we all are uniquely different but have a wholesome desire to be happy. When asked for advice he'd pass on to current Education majors, Arauz suggests that they take some time to get to know themselves first, before they teach. “You, as a teacher, are making more than just money,” he says, “You're influencing values.” He also recommends they find a school that appreciates and supports its teachers. What he misses most about Southern are the connections he made with other students and the freedom to make mistakes and ask questions without seeming incompetent.

The most fulfilling aspect of his current teaching role is being in the right place at the right time for when his students need him most. He says, “[It's fulfilling] to be the one who pulls out the smile they've been hiding, offers a listening ear, makes them laugh when they are sad, and helps build their confidence.”
ONLINE MSED OPTIONS
Where Faith, Learning, and Professional Excellence Meet

Be an innovator with Literacy Education. Redesigned curriculum prepares classroom teachers to engage and empower students to be strong communicators and critical thinkers. Teachers may complete the degree online in two years, with one two-week intensive on campus.

Position yourself for advancement with Instructional Leadership. Southern’s online program with one two-week intensive on campus prepares you to transition to a role as a principal or administrator.

Take learning outside with Outdoor Education. Teachers, youth leaders, and others learn how to meet a variety of educational and emotional needs by immersing children, teens, and adults in God’s Book of Nature. This unique intensive-based program focuses on experiential learning, practical skills, and linking others to their Creator through nature. Summer field schools and fall/winter intensives are available.
