A DROP OF INK

The postwar rush and expansion programs which struck the nation's educational system is still continuing at SMC, contrary to many previous predictions.

many previous predictions.

Building projects and improvements have increased rather than decreased in the past two years.

Despite the fact that the GI bill of rights has rerminated, which cuts off educational aid to veterans, the current freshmen class has not suffered from lack of members.

With SMC verging upon its first full year of accreditation Collegedale is anticipating larger graduating classes composed of

a fuller representation of the offered curricula.

The ACCENT staff welcomes the freshmen class and all new students to enjoy the prosperity and bright future of Southern Missionary College.

A Dash of Spice

The summer has passed by so quick-ly it's hard to tell where the time has by it's hard to tell where the time has gone. Quite a few changes have taken place since we left last school year. We welcome Miss Stoneburner as our new dean and we know that she will fill quite capably the job that our for-mer dean, Miss Greve, left behind.

Remember the two little rooms that formed our dormitory lobby? They have now been merged into one and it have now been merged into one and it makes quite a nice-looking reception room. The desk is to the left as you come in the front door, and behind it is a tiny office. Everything is being re-paired, redecorated, or renewed and our dormitory is looking much better.

Something new has been added in the way of sound, too. Every now and then we hear a loud BDDM! which shakes the ground. The blasts come from the direction of the new apartments that are being built

One hundred four students are en-rolled this fall in the Collegedale Academy, reports Mrs. Roger Went-land, academy registrar.

At the beginning of this school year there were 48 boys and 47 girls enrolled. Later nine more students were accepted, bringing the total to 104 in comparison with 151 of last year.

The academy enrollment has sharply decreased from that of last year, Mrs. Wentland further states. This fact is partly attributed to the large graduating class of the previous year.

the congress of laymen in which each layman marched forward for Christ to take his place in the final movement.

As I sit here thinking of what I should put in printer's ink, I can hear my watch ticking the seconds of time away—five seconds, ten seconds, fifteen seconds—and time slips on.

Each second it ricks away is gone-lost in a mass of eternity. That second never came before; it will never come again; it is now! Did I say now? No, by now it has passed out of existence along

with several other seconds. We realize as we see these golden moments roll by that there is work to be done. There is studying to do. There are plans to be -not tomorrow, not yesterday, but today. There is work to be done now.

Riches are not required in proving a success. But to show how valuable time is let us compare the accomplishments of the millionaire and the beggar. They both have the same time. It is the use of this time that makes such a difference

The kind words we can speak, the helpful deeds we can do, the hearts we can point to Christ,-these if not done now cannot be done later. The soul that is yearning for an act of kindness, for tender words, needs these now. Tomorrow it may be too late.

Tick, tick, tick, tick. During this week of prayer I have realized more than ever that the hour is growing late. There is not much time left. It is now time to get ready. It is now time to give our hearts to the One who can cleanse us from all unrighteousness

As the seconds slip away as you read this let us ponder these questions: Am I using this time which God has given me to improve myself? Am I using this time to bless others? Am I using this time to glorify the Supreme Giver? Am I capturing these fleeting moments, or am I losing them forever?

Has There Been A Change?

Today is Columbus Day. Four hundred fifty-nine years ago a demoralized, disconsolate, disheartened crew of Spanish sailors landed on an unknown island. Four hundred fifty-nine years ago an unknown hemisphere opened it's shores to a new civilization, a new era, and a new life.

From this single voyage exploration spread north, west, and south, pushing steadily, searching continually, and establishing a new heritage in a new land.

Our patriot land has grown since then. Four hundred fifty-years of progress have developed this land into a continentwide, hustling nation of 150,000,000 people. But it was not in the explorers' attitude of greediness for gold and glory which caused our principles of democracy and freedom to be established. Their greedy hearts could not conceive of love and equality

It was the cluster of self-denying, self-disciplined men of lofty ideals of nearly two centuries ago that laid the fundamentals by which we live. And now it seems that the greed that characterized the early explorers again has seized the first place in the citizens hearts. At the close of this week of prayer, it may be well to remem her that the best citizen of America was-and always will be-the one without greed-the Christian citizen.

It has been said that "a little learning is a dangerous thing It has been state that a fine rearring is a dangerous ting. It can be said with equal trueness, that "much learning is also a dangerous thing" unless it includes spiritual knowledge of God and His plan of salvation. Knowledge, plus God, is power for good, but knowledge minus God, is a dangerous thing.

At Southern Missionary College the hand, the head and the heart are trained to function in unity for the glory of God. Your college is the result of hard work, much prayer and great faith in the Giver of all good gifts. The founding fathers had great vision and by the grace of God the enterprise is progressing grandly. My prayer is that this prngress shall continue, widening and deepening as time goes on.

SMC Students Voice Against Clark Appointment

In the IRC chapel program, Octo-ber 31, 400 students and faculty members unanimously voted in favor of a resolution which struck against the nomination of an ambassador to the

Vatican.

Sherman Peterson, addressing the audience, declared that such a nomination would not retraphen, but weaken, the anti-communist program of western antiens.

Roman Catholicism is an ineffective defense against communiam, be pointed out. In the nominally Catholic countries of Europe, communian has

countries of Europe, communism has a substantial following whereas in the Protestant nations communism has a meager hold on the people. Finland, which is situated next door to Soviet Russia, is a possible exception to this. Intelligence reports procured through the Vatican would be biased,

Peterson continued, because of tensor-ship. This was evident, he declared, when the pope complained of incom-plete reports on the German concen-ration camp areceites. "Thus, as Carbolicism is as totalizaran as com-nunism itself, democracy has oathing in common with it. History shows an unfavorable reaction to such alliances of church and state."

The Vatican has no population and no army to warrant diplomatic relations, Gerald Haum declared. "Roman Catholicism is an ecclesiastical organization. Thus, the appointment is unconstitutional."

The assembly voted the following resolution to send to senators McKellar

As we entered into November we entered into a month that traditionally is cold, dreary, and bleak—in weather, surroundings,

October brings us with its bright leaves of red, orange, and October Drings us with its Dright leaves of red, orange, and yellow the beauty of old age, the heauty of death. But we see in November the leaves dying, turning into drab colors of brown and grey, falling off, being trodden under foot and beaten by cold wind

A ringe of melancholy settles down upon the world of Col-legedale. Those friendly smiles turn to frowns as the routine of school life inherits a bit of monotony and the fears and doubts of mid-semester examinations loom up now and then in the minds of those of foresight.

As the cold wind whistles through the skeletons of once lavishly-clothed trees, it gives a message of discouragement and fore-

We wonder: "Where are we going, anyway? Have we done the right thing in coming to Southern Missionary College? Are we going to get through the year financially, intellectually, and spiritually?"

Three hundred and thirty-one years ago on a cold, dreary November day, a small band of common people seeking religious free-dom landed on the bleak coast of Cape Cod. As they looked out over the barren shore thoughts, troubled thoughts, no doubt, came to their minds that they dared not utter.

"Where are we going? Have we done the right thing in leaving the mother country just to worship the way we want? Maybe our beliefs are peculiar and fanatical after all. Are we going to be able to provide for our families? Are we going to get through this year physically and spiritually?"

But a spark of hope lit up the scene. With perseverance and determination they did get through the year, thank God, and in appreciation of God's care, they initiated the first Thanksgiving yes, in November.

Let us cheer up. With the courage and faith of the pilgrims we can get through. Thanksgiving vacation will soon be here. Let us smile and by so doing rise above the discouragements of our troubles of worry that have never come and put our fellow man

THE THANKSGIVING SDID

Well, folks, Thanksgiving is here again. That isn't so to forget when you are going to school. I am afraid all it m to most of us is a vacation from school.

But let's think about the real reason we have a Thanksgi day. When the harvest was over and all was stored way pilgrims set aside a certain day of the year when they could count all their blessings and see just how much God had bl

them. To this day this is just what we have been doing. Every year we stop for a moment and consider how we we are. But is this really enough? There are many people in world and even in our own neighborhood who scarcely have enough to eat. We should find these people and share them. Here at Collegedale Academy our forum has thought plan so that each of us can help. Each class is preparing a basket to give to needy families at Thanksgiving so they happy, too. But unfortunately our efforts aren't enough. If e one would help in some way to make someone else happi real Thanksgiving spirit would manifest itself.

degree
Dr. W. F. Waddell, Seventh-day
Adventist medical missionary to Siam,
addressed the group on "Love, the Activating Motive of Service."

Selfishness is the foundation of all unhappiness in the world. Egotism was the cause of the first sin in heaven, the first rebellion. Self-centeredness caused the first sin on earth, the fall of man. Con ccit is the root of the broken families which state of instability is tearing away the very foundation of our society. Selfishness or selfcenteredness is the prime source of mental illness today. Envy burst-ing forth from selfishness of countries is the basic cause of war.

In view of the great disturbance which selfishness causes, w may wonder why man continues to live in his own little hole. It has been said that self-preservation is the first law of nature. How

true this is when its meaning is not perverted.

The greatest Teacher ever on earth, the Saviour of men, abided by their law in its proper aspect. He preserved Himself; He believed in self-preservation. He preserved Himself, with His Father's help, from sin and vice. He preserved His health in order to serve. He grew in knowledge and understanding not merely for self advancement, not for egotistical achievement, not for worship of education but for the advancement of the kingdom of God, for the advancement of the truth through which all men can be freed from their degraded death bound state. It can be said that he preserved Himself from self-preservation as it is thought of toda

self from self-preservation as it is thought of today.

Self-preservation in itself may mean selfishness. If so, it is not the first law of nature. Self-preservation for the benefit of others

would be its opposite.

Many are the besetments of man that he struggles to overcome But the greatest battle is with self.

The way, the only way, to win this battle with self is to follow in the steps one the One who has overcome before us. He lived for the service of others. He went about doing good. He would give

a kind word, do a kind deed to cheer the depressed.

If we, like He, could acquire this working philosophy in life, the philosophy of service instead of SELF, we could change the world about us. Here at Collegedale we could change many frowns into smiles. We could change the whole life pattern of our fellows to their eternal benefit. We could lay the foundation for a happy home and family which may be ours in the future. We could acquire the peace and joy that Jesus came to give nineteen centuries ago.

Let us never forget as we study, work, and play that our educa-tion is for the "joy of service in this world and the higher joy of wider service in the world to come.

Ludington's Spend Eight Years of Mission Service in Burma

Two well-loved persons at Collegedale are Mr. and Mrs. D. C. Ludington, who, no doubt, are loved by many in Burma where they spent eight years of missionary work from 1914 to 1922. Mr. Ludington was the edu cational secretary of the Burma Union, superintendent of the Upper Burma mission and superintendent of the Meiktilla Technical School as well as being his own stenograper, bookkeeper and secretary.

The school was primarily for boys and of the 180 students which at-tended, nearly all of them were Bud-dist. During the Ludingtons' stay about forty boys were baptized, some of whom returned to their own native villages to work.

One Christmas Eve while the Lud-One Christmas Eve while the Lud-ingtons were eating supper the super-intendent of police came to inform them that the Mohammedans were planning to kill all of the English people in an uprising that night. He cautioned him to tell no one of the plans, particularly his wife. Mr. Lud-ington watched all night but nothing happened, making it unnecessa-flee to the fort as was plann-trouble started.

In his work Mr. Ludington had to make a number of trips. Once he and two others went into the Southern Shan States to check the prospect for a mission. It took two weeks for the trip, three days of which were spent with the native chief who offered them a priction cities. the name chief who directed them a mission sight wherever they wished. While returning home they ran out of food, except for rice and garlic. Mr. Ludington said that by the time he returned home garlic was practically occing from his pores.

What made the mission work diffi-cult was that the people were self-satis-fied in their present life. What they wanted to learn was the language, but their religion, in their opinion, needed

The weather of Burma has been es pressed by naming the seasons "hot, liotter, and liottest." Mr. Ludington stated, however, that the seasons were really composed of two hot seasons, a rainy season, and winter. Summer tem-peratures ran about 120 degrees while in winter they were about 65 degrees

Curries and rice were the main dishes. Vegetables of any kind were rare though okra and eggplant were the most common, and it was almost im-possible to obtain milk.

possible to octavia milk.

The Ludingtons had a small brick home something like those found here in the States. Mr. Ludington said he made most of their furniture himself out of tek wood.

Both of their children were born in Burma. One of them, Louis, is doing medical missionary work as an M.D. in Stam, just across the mountain from where he was born.

A new surge in traffic and safety precaution has marked this year from the preceding ones. Whereas a few "no parking" signs and yellow lines reminded drivers that safety was something desired; the new regulations, brillant stop signs, and pedestrain lanes re-mind Collegedale residents that safety is not only desired, but is desperately needed on our campus.

The latest addition to the growing list of precautionary measures is the junior patrol, composed entirely of grade school boys. These hoys, who have complete control of the intersection at the north end of the men's dormitory, need cooperation and courtesy in thier

When the pedestrian lane is congested with grade school children, and adults fail to recognize the authority of the junior patrolmen, it naturally follows that the children will also become negli gent. To say that one has good character usually means that he has good social qualities. One's character is made up of the little rhings he does or does not do, or the way he acts in emergencies. People judge his character by those little things, not by the big, showy

Often one's character is merely a reflection of the social attitudes and tendencies of his family and himself at home. Many great men are known by the big incidents in their lives, but truly great men are known more for the small, seemingly insignificant things. A few of the little things on which we can test ourselves are truthfulness,

modesty, kindness, tolerance, and industry.

A man once approached Dwight L. Moody and asked for his definition of character. Moody thought a moment and then replied, "Character is what you are in the dark." Those eight words summed up a complete and concise definition of true character. Surely a real test of one's character comes when there is no one around to see.

Character is certainly important wherever one goes, and what-ever one chooses to do. "Reputation is what people think you are; character is what you really are.

Candlelighting Ceremony Highlights the First Friday Night MV Program of Year

The candle flickered then burst into flame. Quickly the light was passed to filme. Quickly the light was passed to the others on the platform and they, with their lighted candles, passed the light to each member of the congrega-tion. At first just a flicker—but the light grew until the whole tabernacle was lighted as over 500 young people of the Collegedale MV society held their lights high.

For the first time this year, the MV For the first time this year, the MV society presented its program on Friday night, January 5, instead of on Sobbath afternoon. BACK TO SCHOOL

With the Christmas holidays behind us, everyone is back to with studies and all the formality of school life.

The holidays brought a joyful and pleasant break in our routine. With these pleasant dreams still in mind, we re-enter and find ourselves face to face with semester exams. If this enough to bring our blood pressure up to normal, our se grades will.

Most of us do not realize the speed with which the examin-come upon us. The time to prepare is now—in the days before time-not the night before.

Good luck!

Evans Addresses Mid-Year Class

Steady and slow, step by step to the rhythm of the processional march, eight dignified seniors marched sol-comply down the center aske of the chapel in Lynn Wood Hall to be ad-dressed and receive their diplomas and degrees on Saturday night, January 26, 1952

1. M. Evans, president of the Ala-bana-Mississippi Conference gave the address, "Service" was the theme of the speaker, Service is the supreme need of the world at this time, was the thought of Elder Evans.

"If we do not have the sacred flame of service burning in our learts, life will be dull and commonplace. The thing we need now is service. The greatest thing these graduated men and women can give God and man is consecrated Christian service." Cleverly, an acrostic of the word SERVICE was presented to the audience and the honored class.

S -- stands for sacrifice, the first and primary element that enters into serv-ice. It was pointed out that no great movement in history has ever succeed-ed without sacrifice. Christianity is founded on sacrifice. The blood of martyrs has been the seed of the

church,

Life is made up of a continuous series of partings and greetings: a series of giving-ups and acquiring. Some are happy; some, sad. Some are for the good; some, for the bad. Some are necessary; some, unnecessary

The baby must sooner or later part with his bottle to greet a glass; he must give up his rattle to acquire a pile of blocks. He must lose his play pen in order to expand his territory of recreation.

And after a few years the child must part with his mother a few hours each day to greet a new supervisor, his first grade teacher. He gives up to a certain extent his little sister as a playmate as he acquires a larger scope of playmates from the "gang" at school.

When the boy makes a transfer from the elementary to the secondary grades he must part with the one-teacher system and greet the many-teacher system. If he goes away to an academy he must part with his own family, to move into a larger family at a boys'

If from the academy he goes into a vocation, the boy must part with his books to greet his tools. He must give up a teacher to ac-quire a foreman; or if he goes into business for himself, to acquire a group of pleading customers.

The boy may go off to college where as he matures he will part with many of his preconceived ideas to greet a greater scope of knowledge. Perhaps at college he will part with a close circle of

'pals" to acquire a mate. And so it goes, from step to step, life is one continuous series of greetings and partings.

But the purpose of this editorial is not merely to display these common occurrences in life, important though they may be. Let us think of the one great parting of life and its opposite.

This parting is more important than any other parting or any phase of life. This parting arises from a necessity. It is a prerequisite to eternal life. It is for the good of the one who parts, for it enables him to live more abundantly, it enables him to be free. And simultaneous with this parting is a greeting.

This greeting is as necessary as the parting. In fact, the parting is no good without the greeting. This greeting is for the good of the one who greets.

This great parting is the parting of a sinner with his sins, the parting of a man with the ways of the world. This great greeting is the greeting of the sinner and his Saviour. This is the happiest parting and the happiest greeting of life.

Another parting of life bears great weight. This parting is opposite to the one mentioned above. It does not arise from necess hut from neglect. It is not for the good of the one who parts, but for his eternal downfall.

As the other great parting, this is simultaneous with a greeting The parting and the greeting go hand in hand. This parting is the parting of a Christian with his Saviout, a parting of a man with the ways of the upright. This greeting is the greeting of a man and sin, the greeting of a man with the arch deceiver. This is the saddest parting and greeting of life.

Yes, life is made up of a continuous series of partings and greetings: a series of giving-ups and acquirings. Some are happy; some, sad. Some are for the good; some, for the bad. Some are necessary; some, unnecessary

May our parting of the last two be the happy one. May it be for the good. May it be the necessary one.

THE BETTER WAY

I'd rather see a sermon than hear one any day; I'd rather one should walk with me than merely show the way. The eye's a better pupil and more willing than the ear; Fine counsel is confusing, but example's always clear: And the best of all the preachers are the men who live their creeds For to see the good in action is what everybody needs I can watch your hands in action, but your tongue too fast may run. I can soon learn how to do it, if you'll let me see it done And the lectures you deliver may be very wise and true But I'd rather get my lesson by observing what you do.

For I may misunderstand you and the high advice you give But there's no misunderstanding how you act and how you live.

College Band Plays in Year's First Concert; Features Sax Quartet

The College Band is soon during its concert of last Saturday night. Professor N. L. Krogstad directed the Band at its first appearance of the current school year.

The College Band, under the direction of N. L. Krogstad, presented its first concert of the year, Saturday night, February 9. Wayne Thurber acted as master of ceremonies.

The grand opening overture was the "Legion of Valor" by Frangkiser. This was followed by the "Rustic Dance," and the "Spirit of '76 March." Dount Weber, tenuo' saxophone soloist, played the following little waltz, "Valse Lynnette," with bond seconyminer. band accompaniment

Best received by the audience were the group of Southern numbers, in-cluding "Best-loved Southern Melo-dies" arranged by Hayes, the "Blue-tail Fly," and "Moods Americana." The "Guardsman March" concluded this section. During this part of the program the audience was taken back into the days of Stephen Foster and Robert E. Lee.

The Collegedale community has seen a decided trend recently in civic affairs. Last year the civil defense program included the medical cadet corps, the civil air patrol, and community first aid

This year the safety committee has introduced stronger traffic and pedestrian regulations. Then a few weeks ago Collegedale organized Hamilton County's second junior chamber of commerce. What will be the next project?

For a long time Collegedale has needed a fire truck. A clumsy hose care pushed by a group of panting, puffing boys with banged up shins is inadequate protection for the buildings at Collegedale. A large share of these buildings are old and dry. Some are not equipped with even a sprinkler system. A fire in Collegedale could have devastating effects.

Insurance rates are high at Collegedale; one reason is the lack of fire protection. A fire could inflict extensive damage before a truck from either Chattanooga or Cleveland could arrive on the scene. Property owners would certainly appreciate cheaper, but equally as good, insurance premiums.

Then there is the case of Apison, isolated from other towns because of no telephone service. Three of four miles drive to Collegedale for help is better than a longer drive to East Brainerd for the same purpose.

Also there is Ooltewah without a fire truck. What has been said for Apison can be repeated for Ooltewah. And there are numerous farmers in the near vicinity who would consider a fire truck a great asset to this territory. Can garden hose or bucket brigades insure sufficient protection to these three groups of people living outside of the Collegedale community?

Then there is the aspect of public relations with all these people not connected with the college or the SDA church. Why wouldn't a fire truck build better feeling among the three towns and surrounding country?

For a long time Collegedale has needed a fire truck. Let's acquire one before disaster claims its toll.

OPINION POLL

Do you think that it would be advisable to start a public campaign to raise funds to purchase a community fire engine? Do you think it would be practicable for Ooltewah, Collegedale, and Apison to enter upon a joint project for this purpose?

Collegedale Leads Drive for A Million Enrollees in Bible Course

One million enrolless in the 20th Century Bible Correspondence course is the goal of E. L. Cardey, director of the school in Adanta, and his corps of workers. The Atlanta school loopes to attain its goal by December 31, 1931. Leading the drive to enroll students in the course will be the Collegedake church, which is now canvassing the Chattanooga area with enroll-ment cards.

A DROP OF INK . . .

As I told you in chapel last Friday we plan to produce the best annual in the history of SMC. I also reld you it would be in your hands not later than Friday, May 16, 1922. Your Southern Memories staff has worked very hard on this

annual and we have much faith that you will do your part to help

However, our faith was greatly shaken last Friday when we received the total amount of forty-six (46) subs, nine of which were given by my fellow staff members.

May I ask you students, do you want an annual? We have solicited more than \$2,000 in advertisements. Shall we return this money? Is all of our time and effort meaningless to you?

I make this promise: if 50 per cent of the student body will

gr make this promise: if 50 per cent or the student body and gr me (1) sub besides the one paid on the activity fee, I will get one hundred (100) subs personally.

Friends, if we printed this annual for your pleasure only, it would cost you not less than 56.60. We are happy to solicit add so that you will pay only \$3.00 per copy for your annual. Why not take two (2) annuals for \$7.00. This is only \$.40 more than you would pay if you were accepting the responsibility yourself. Let's get behind this, students. Let's show our school spirit.

Let's accept our responsibilities and carry our part of the load.

Thank you very kindly.

Marie has been a church school teacher for five years in the Georgia-cumberhand conference, serving at Postell, North Carolina; Columbus, Georgia; and Altamont, Tennessee. She has been active in Sabbath school work, laaving held the office of primary division Sabbath school superintendent and assistant superintendent of the tabernacle division Sabbath school.

When asked about her hobby she inswered, "Just whatever needs to be done." Upon further questioning she said that when she finds something that needs doing she makes it her hobby and thus gets it done the sooner. She says her ambition is to be the ery best homemaker possible and to If a place in the Lord's work.

Four elements in successful teaching were given by Elder Archa O. Dart at the Teachers of Tomorrow Club meeting, Wednesday evening, March

A good teacher must be able to instill in her students a feeling of security. She must make them feel wanted. They must have responsibilities and a feeling of success.

Spring with its tantalizing breezes, its warming sun, and budverdure has come to Southern Missionary College. Nature is making a new try at life.

Simultaneous with this new evidence of life has come another life-reviving program, a spiritual change—the spring week of spiritual emphasis. For one week, February 29 through March 8, Elder Andrew Fearing brought messages of hope, inspiration, and con-

"God and you are a dynamo;" "Meekness does not spell weak-ness;"—all week Elder Fearing electrified the student body with his sermons and illustrations.

Collegedale audiences learned quickly to appreciate their guest aker, and they attended both the chapel and evening services in numbers that few programs exceed. Not to be forgotten in their share of the week's program are Elders Fenton E. Froom and Archa O. Dart, who directed the services for the academy and elementary school, respectively.

Collegedale will long remember this week of prayer and often give thanks for the ministry of their guest speakers.

Attending School Is a Privilege

How many times have you heard someone say, "How long must we wait until school will be over?" (Perhaps you have been guilty of saying that yourself.) Only eight more weeks of school, then what? Will we then be able to say that we are happy it's all over? We shall recall many pleasant memories of the past year and will soon find ourselves wishing it were time for school to begio again. How blessed we are, in this great land, to have the privilege of attending a school such as ours.

College Day Again

As the clock on the wall slowly ticked off the minutes, days, and months, we again found ourselves nearing that day of days when we are privileged to join with senior academy students from all sections of the Southern Union

Most of the students here at Collegedale are well acquainted with the College and its activities, but many of the visiting stu-dents were not. Each Collegedale Academy student was proud to do his part in making College Day a success by answering questions, showing people around, or just being friendly.

For a change the cafeeris staff did not take the responsibility of the food preparation and serving. A committee of students prepared the food, another served it, and another deaned up. The menu included potato stafd, baked beans, carrot sticks, celery sticks, olives, potato chips, grape punch, cullets, and apple pie with ice cream. Grady Smoot, associate editor of Southern Memories, will move up to the editor's desk to head next year's annual publication. Assisting him as business manager will be C. L. Beason, the twice-elected president of the married couple's forum.

Glancing through the file of former issues of the SOUTHERN ACCENT, one can easily trace the progress of Southern Missionary College, both as a college plant and also as an institution fosterin a wide area of student activity. The development in these two fields has been nearly simultaneous. When on May 26, 1946, Collegedale graduated its first class of four year seniors, SMC had experienced its highest enrollment in history.

Continuing its enrollment increase in 1946-47, SMC dedicated its new A. G. Daniels Memorial Library which gave the campus a much-needed and well-appreciated attraction. Within a few months the first student senate organized with thirteen members, which immediately formed committees to investigate and promote its busi-

From that date, college expansion featured a new science hall, tabernacle-auditorium remodeling, and industrial expansion. Within the same years, student activity settled into a period of development, quiet at first, but receiving its big push in 1949-50 when the student senate reorganized, becoming the officers of a student association under a new constitution.

KEEP LOOKING UP

Keep looking up, not down at your difficulties. We all have obstacles in our way and somehow we must overcome them. If we try to surmount them all at once we will soon become discouraged and give up, but patiently overcoming them one by one we grow stronger and are better enabled to face the future with a smile.

The highest hill may be climbed by patiently ascending step by step; the toughest job may be accomplished by continuous effort. The perfection of our lives is not gained in a day but by the patient work of a life time.

Smith Demonstrates Fire Prevention

they are to be used.

A fire drill concluded the meeting and the students were timed to find out how long it took to empty the chapel, only 45 seconds! Sometime in the near future another fire drill will be given to find how rapidly the entire building may be emptied.

This issue of the Southern Accent writes the final page in SMC's 1951-1952 school year. With this last issue of volume 7 who form the present staff extend our best wishes to all subscribers. We have endeavored to present the news as we saw it and convey to students, friends, parents, and prospective students factual stories, life, and events at SMC, which we are confident have been an accurate and distinct picture of Seventh-day Adventist education.

The faithful service of this year's staff which has made possible the SOUTHERN ACCENT has been greatly appreciated. Bearing a heavy share of the editorial duties has been Lynn Sauls. The column-Carol Jean Whidden, James Joiner, Elaine and Barbara Higdon, Bob Huey, and Marvin Rogers have brought to Accent readers the personal news of SMC's faculty and married and single students. The group of reporters who have attended meetings, in-terviewed people, and observed events to write news stories have formed the backbone of the staff.

The typists, Doris Marsh and Jackie Bennet, have rendered hours of exceptional service to keep the ACCENT on schedule. Charles Harris has handled the SOUTHERN ACCENT finances while Florence Rozell has spent countless hours in maintaining working order in the circulation files

It is our sincere hope that you readers have enjoyed follow-ing SMC's events as much as we have enjoyed publishing them for you; we hope that by reading the ACCENT you are better acquainted with the Seventh-day Adventist education which we have experienced.

NSV Crawford, station manager, WSMC, he stated, has successfully broadcast daily programs since College Day, April 21. The programs have included news and music from 5:30 to 6:30 p.m. and a special broadcast lasting one hour to sundown on Fridays. The station also featured some of the chard programs days. The station also of the chapel programs

The main project for the summer, The main project for the summer, Crawford says, is an extension of lines to enable those who live in the out-skirts of the community to hear WSMC's programs. The station has recently purchased \$100 of transcrip-tions from New York; increased its stock of recording tape; and recorded on tape many songs of the Adelphian Quartet.

"We have big plans for next year, and we have organized to start off with a bang," Crawford predicts. "We have tried the project and know that broadcasting at SMC will work."

Reminiscence

Our 1951-52 school year has drawn to a close, and with its

close we are a step closer to our goal.

As we look over the past school year, we see many things that have made deep impressions on our minds; picnics, programs, and classwork have all become a part of us.

It has been a great honor and pleasure to work with the ACENTON-THE-ACENTY staff this year. Next year I am sure another fine group will support the ACENT.
