A Beautiful Gate for SMC

By HARRY HULSEY

President, Alumni Association

Remember when Mother or perhaps Grandmother first had her hair cut "short"? From earliest childhood you sat intrigued as you watched her brush the long, flowing strands. Then with deft fingers she would form a ball of her rolled hair, press it close to the back of her head and secure it for the day with a few well-placed hair pins. Now all that beautiful crown lay on the floor being trampled by the beautician who was "modernizing Ma." "Surely this will also change Mother's personality," we thought. She will never again be the same sweet, typically Christian mother we have known through the years, even to the day before. But, somehow, life did not end that moment. Mother still had the same, unaffected selfless spirit and we grew accustomed to her changed appearance.

The face of our Alma Mater is changing rapidly. New structures are being occupied, while old ones are being removed. Going now are the old college store and post office, the form-

When Nehemiah heard that Jerusalem had been burned and its walls broken down, he said, "I sat down and wept and mourned certain days." But the story doesn't end there. Nehemiah was not a man who succumbed to discouragement. Responding to Providential direction he organized his people to reconstruct the city and its walls. "Then I told them of the hand of my God which was good upon me; as also the king's words that he had spoken unto me. And they said, Let us rise up and build. So they strengthened their hands for this good work."

Southern Missionary College alumni all over the world will want to make some kind of contribution to a distinctive project now sponsored by the association. The old twin pillars that used to designate the "gate" into Collegedale are no longer representative. In fact, one of them was removed some time ago because it interfered with the approach to an adjacent service station.

It is felt that a monumental sign built of Tennessee crab orchard stone will proudly represent a rebuilt campus, and the SMC Alumni Association is happy to be chosen to sponsor the project. The cost will be approximately \$2,500 and there is now \$371 in the treasury earmarked for this purpose. Please make your remittance by mail or come to the Homecoming, October 11-13, prepared to help us culminate our drive for these funds. The dynamics of a growing organization such as ours demand that we move into greater challenges, commensurate with the demands of the times. Let's conclude this one quickly and adequately.

Tanganyika, Africa

Dr. Bill Dysinger hopes to have a few days of recreation from his work and join friends who will make an attempt on Mt. Kilimanjaro.

Thailand

John Harris, '55, writes: "We have been located on the beautiful island of Phuket over a year now. We have the good fortune of teaming up with our medical work here on the island. There are two doctors now, one of them Dr. Paul Watson, '50, and you will remember his wife, Ruth Risitter Watson, '49. We enjoy our association with them very much. We are now in the midst of a church building program and a hospital building program."

Ivory Coast, West Africa

Nyasaland, Africa

Elder Phaize Salhani, '50, tells us of a trip to the Luwazi Mission "un-eventful until we started up the last hill to the mission. Then because of the rain, I with 18 boys had to push and pull the car up the grade. I flew from Mzuzu to Mzimba and then climbed into a large lorry (truck to you Yanks) loaded with poles for the Mombera Mission. Seven miles from the mission a big bus bogged down. I tried to help the driver but he wouldn't listen, so he made the situation worse, the rain came, and after it let up another bus came from the opposite direction and with a weak rope managed to pull it enough so that other vehicles could get through if and when the washed out bridge is repaired. (Can you see me building a bridge, bossing a gang of Africans, one shovel, two bush axes, many drones, few workers?) The African M.V. Secretary and I hitched a ride for a few miles, then started our three mile trek to the mission. On this trip, besides my departmental duties, I have repaired the front end of a car, done some welding, put in a kitchen sink for which a dear lady has waited for months, cut hair for the American family at Luwazi, planted grass in front of a mission house, and checked a power plant."

Spicer College, India

From the Spicer College campus comes an alumni letter. Ralston Hooper and his wife June, '40, '42, are on the same faculty. The Hoopers wrote of the 1961 flood in the city of Poona. "A newly-constructed dam about 30 miles upstream gave way after the heavy rains. The rush of water caused an old dam 12 miles above the city to break; and the resulting flood poured through the heart of Poona, destroying homes, shops and bridges. About 50,000 people were made homeless. Neither Spicer College nor our Division offices were touched by the flood. Our people were active in relief during the emergency. Poona's water supply, stored back of the dam which broke, had surged past in one day, and water was rationed for weeks."

Hawaii

Lois E. McKee, '43, has been in Hawaii since 1953. She earned her M.Ed. at Mississippi State University. "This is my fifth year here in Hawaii and I've loved every minute of it. If any of the SMC Alumni come to Honolulu please be sure to look me up at Hawaiian Mission Academy."

SMC ALUMNI BULLETIN

Vol. XIII November, 1963 No. 7

Published quarterly by Southern Missionary College, Collegedale, Tennessee. Entered as second class matter February 12, 1951, at Collegedale, Tennessee, under act of Congress, August 12, 1912.

Two Alumni Projects

By GLEN MCCOLPIN, *President*

Glen McColpin

Greetings, fellow alumni, from all the Alumni Association staff! The new SMC Alumni Association has met and many plans for 1964 have been made, but we need your help to make them a success.

Your Alma Mater is certainly pushing forward. Those who have not visited the campus in the last four years would hardly recognize "dear old Collegedale." There is a new shopping center, a women's dormitory and several additions to the old buildings, thus completely changing the physical plant. The construction of the new Collegedale church is to begin this summer.

Not only is Southern Missionary College pushing forward in enlarging the physical plant, but the student body is also enlarging by "leaps and bounds." SMC has more students this year than ever before, and more students mean that the Worthy-Student Fund needs much more money to get some of these students over a financial hump. The association needs your financial support to help as many of these students as it possibly can.

The Alumni Association voted to put up a Southern Missionary College sign on the campus as their contribution to the new building program. The time for the installation of the

sign has almost arrived, but there aren't sufficient funds in our treasury to allow us to do this. If each alumni member could send the association \$2.00, we could install our sign and have some money to add to the Worthy-Student Fund.

We want to extend a special invitation to the most unique homecoming (October 9-10) that Collegedale has ever experienced. Make plans now to join your many classmates on our campus during that weekend. However, if for some reason you are unable to attend, it is our prayer that all of us meet in that great homecoming above.
