The new sign for the college, being provided by the Alumni Association, will be placed at the head of the campus mall (see artist's sketch above) between the automobile entrances. The mall stretches out in front of the new administration building (building in center with tall columns).

This building, now under construction, will be finished in early 1967 and will alleviate the classroom and office shortage in Lynn Wood Hall, the present administration building.

The artist's sketch also shows the new dormitory on the left of the mall; this structure is also under construction. Footings have been run, and the walls are going up on this building, which will eventually be used for the young women.

The new alumni sign, in the midst of these improvements, identifies the fastest growing college in the denomination—SMC.

Bowen Plans Alumni Year

On behalf of the new Alumni officers for 1967, I would like to extend greetings to all graduates and former students of Southern Missionary College. It is with a deep sense of responsibility of serving as your newly elected officers that we assume our duties.

SMC has now become the fastest growing college in the denomination, thus the Alumni Association must give ever-increasing help to its college at this time of rapid expansion.

As we formulate plans for the coming year, there are three areas that will receive our special attention. They are:

1. Up-dating Alumni records as to member activity, new degrees received, new members to families, etc.
2. Local chapter activities and organization.

Dr. Dewitt Bowen

Homecoming Draws Crowd

On Friday, November 4, registration took place in the Women's Residence Hall and the Collegedale Church.

Elder Kenneth A. Wright, former president of SMC, was the featured speaker for the Vesper Service at 7:30 p.m. The title of his sermon was "Am I My Brother's Keeper, or Am I My Brother's Brother." He used as his text Genesis 4:9—the story of Cain and Abel. He stated that one should be a brother to someone who doesn't have a brother. The greatest thrill in the world is being of service to someone else. He related the story of the talents and how they were used. Everyone has at least one talent, and it is his responsibility to use it in the right manner. All God asks of us is to do our best with whatever we have. Man may be in active service for God while engaged in ordinary everyday duties. The mother who is training her children for God is doing as great a job as the minister in the pulpit.

On Sabbath, November 5, Elder Don Holland, MV secretary of the Kentucky-Tennessee Conference, was the featured speaker for the Sabbath service. He spoke on "Atomic Power," using as his text, Isaiah 40: 26-29. One cannot look to other men for power. All are capable of doing the will of God, he didn't make us in-

capable of doing what we must do. The Lord has a place for everyone. Our Lord is our helper. Not once should we think of failure. The power is in the church. God can make us strong by uniting our weakness with His power. The Holy Spirit can change our lives; God has promised us this gift. The Holy Spirit is to use us, we are not to use the Holy Spirit.

On Sabbath afternoon at 3:30 the music department presented a sacred music program.

At 6:30 P.M. there was an Alumni supper in the cafeteria, followed by a business meeting during which officers for the year 1967 were elected. During the supper hour Elder Don Crook, past president of the Alumni Association, read from the Constitution regarding requirements to be met in order to be considered an alumnus of SMC. Mr. Charles Fleming, business manager of SMC, gave a brief explanation of the physical plant of SMC. A plaque honoring Dr. Lynn H. Wood for his services to Southern Missionary College during his presidency from 1914-1915 to 1918-1922 was shown to the members of the Alumni Association.

New association officers were introduced, and the meeting was adjourned.

Michigan Organizes Chapter

Members Elect Phillips President; Others Named

With sounds of “Howdy Y’All” former faculty members, students, and graduates of Southern Missionary College gathered on the campus of Andrews University for the first alumni gathering in Michigan and the surrounding states.

Under the leadership of Elder Jamile Jacobs, a graduate of the class of 1951 who is on leave from Pakistan, and former members of the class of 1946, a potluck supper was planned. William H. Taylor was with the alumni to show pictures of SMC and to help out in the formation of an alumni chapter in Berrien Springs and vicinity.

One hundred and fifty persons showed up to share old times and to renew old friendships. Everyone was given the opportunity to introduce himself and to tell what class he graduated from and what he is presently doing. Among some of the former SMCites were members of Southern Junior College and one from the first graduating class of Southern Missionary College.

After the showing of pictures, officers for this chapter were elected. Dr. Harold Phillips, class of 1951 who is now teaching at Andrews, was elected president. Elder E. C. Banks, a graduate of SJC who is now teaching in the seminary, was elected vice-president. For secretary-treasurer Phillip Wilson, class of 1966 and who is in the Seminary, was elected. Bill Wood, class of 1966 and who in the graduate school, was chosen publicity secretary.

After the election of officers Dr. Banks had a short worship talk. With sounds of “Collegedale forever, Collegedale, we’re true to you,” the first alumni gathering closed. The new

Dr. Carl Jansen, '58 Receives Award

COLUMBIA, Mo.—Dr. Carl Jansen, a resident physician in the department of radiology at the University of Missouri here, has been awarded a $14,000 James Picker Foundation advanced fellowship in academic radiology for his research studies in nuclear medicine.

Dr. Jansen is studying the application of neutron activation analysis in clinical medicine.

Upon completion of his three-year residency in radiology at the University Medical Center in June, Dr. Jansen will devote half-time to this research.

He received a B.A. degree in physics at Southern Missionary College, Collegedale, Tenn., and later spent a year in graduate study at Vanderbilt University under an Atomic Energy Commission health-physics fellowship. In 1963 he received his M.D. degree from Loma Linda University near San Bernadino, Calif.
