LIBRARY OFFERS FACULTY SELECT

Utilize Open Education Resources to help drive textbook affordability and access

Over the course of a year, the average college student spends more than \$1200 on books and materials (College Board, 2019). *EBSCO's Faculty Select* allows faculty members to directly support textbook affordability efforts. By leveraging free open materials and low-cost library-licensed resources, faculty can transform their courses and reduce the cost burden for students.

Through a single interface, faculty can search and access quality open textbooks, Open Educational Resources (OER), and request access to unrestricted library e-books from top academic publishers. Moreover, because Faculty Select consolidates Open Educational Resources (OER) in one database, it saves faculty

time searching and collating materials from numerous OER platforms.

Accessing the Database

Faculty Select can be accessed on the Services for Faculty section of the library's website.

September 24, 2020.

The year 2020 marks the 50th anniversary of McKee Library. Throughout coming months, we will feature a variety of historical photos on the library's social media platforms.

The images here picture the library's original circulation desk (top) and the view from the second floor (bottom). The atrium included a unique clock feature, seen in the image.
