## Calendar Supplement Number 1918—1919

### Foreword

We are in a terrible war—a time when every dollar should be conserved, when every new expense should be shunned, unless absolutely necessary. The school management realizing this, is using the Calendars issued last year to convey information of a general character to its patrons, and with it issuing this supplement to call attention to some changes made necessary by the changing of policies and the stringency of the times. Our patrons, many of them, already possess last year's Calendar, and by examining that in connection with this bulletin can obtain a good idea of the work carried on

by the school. The cooperation of the school's constituency is earnestly solicited in this "war-time departure" from a long established precedent, and this paper is sent forth with the prayer that our young people, realizing the seriousness of the time in which we live, will give careful thought to the preparation needed to fit them for the part they will be obliged to play in the closing drama of the world's history. Only a limited number of the Calendars are on hand, but if those who do not possess one, and who wish information not afforded by this supplement, will communicate with the school, a Calendar will gladly be sent them.

EXPENSE

BOARD.—The American plan of boarding will be introduced this year. The school feels that this can be made as economical as the cafeteria plan and at the same time gives greater opportunity for table etiquette and proper social development. The board of the lady students will be \$9.00 per month, that of gentlemen, \$12.00. These rates are based on the actual average cost of board for both ladies and gentlemen during the past year.

At the close of the year all above a 5 per cent net profit for the culinary department is returned pro rata to the student, thus lessening the above figures. All donations of food supplies secured through the efforts of students or teachers materially increase this general rebate.

TUITION AND HOME EXPENSES.

The rate of tuition is \$75.00 for the year, payable in five payments. For home expense, including room, heat, light, plain washing, bath room privileges, with use of library, etc., the sum of \$55.00 is charged, payable

All students should present two manumental units for graduation from this course after the year 1917-18, besides the sixteen literary units. For two literary units, however, there may be substituted one unit of drawing or music and one unit of physical culture or agriculture, at the discretion of the Faculty.

Figures 1-2 indicate first and second semester.

A "unit" means one subject, satisfactorily pursued during a year of thirty-six weeks, through forty-five-minute recitation periods. Five days a week.

SCHOLARSHIPS.—Our Publishing Houses and Conference Tract Societies are cooperating with the school in giving students

who desire to earn a scholarship through the sale of our publications a discount of 15 per cent from the net expenses of the

school period. Estimating the expense of a young man at \$243 as above, the discount would reduce this to \$206.55. It will be easy to figure the number of books or magazines to be sold to earn this amount.

The Southern Junior College is anxious to cooperate in every way possible to carry out this plan. Colporteurs are welcome.

## Charges Payable in Advance.

The school has been trying to operate on a cash basis, and will do all it can to keep the student on this basis. We are instructed to shun debt as we would leprosy, and unless the student does this, it will be impossible for the school to do so. If a student is educated to pay cash for his schooling he will certainly operate his finances on a cash basis when he leaves school and is given responsibilities in the work. Our conferences are so desperately in need of workers that several times lately they have asked for students before they finished their course. It would be very embarrassing both to the student and conference to be required to settle a debt at the school before going on with the Lord's work. In order to avoid these perplexities, and to assist both student and school in maintaining a proper financial rating, the School Board has voted:

1. That no student begin school without a deposit of cash or credit sufficient to cover a period of six weeks' schooling. For those who are taking regular school work, not including music or other special courses, this amount would be approximately \$50 for a young man, or \$45 for a young lady. The \$50 is based on charges for the first period, and may be a trifle more than for any succeeding period during the school year,

on account of entrance and laboratory fees.

This means that a student can start school with a credit of only \$50, but upon each of the dates heretofore mentioned, at the beginning of the respective periods, he should see to it that sufficient credit appears on his account to cover the next period.

To many, on first thought, the expenses for the year 1918-19 will appear to have a material increase over the previous year, but the following comparison will reveal that such is not the case. The average expense of ten students, taken at random, for the past year, including girls and boys equally, is as follows:

	Girls	Boys
Tuition.....	\$45.00	\$45.00
Room .....	18.00	18.00
Light, heat and laundry.....	18.00	18.00
Board.....	83.00	105.00
Two-hour time, given to School	48.06	50.13
Entrance fees, library and registration .	1.50	1.50
<b>Total....</b>	<b>\$213.56</b>	<b>\$237.63</b>

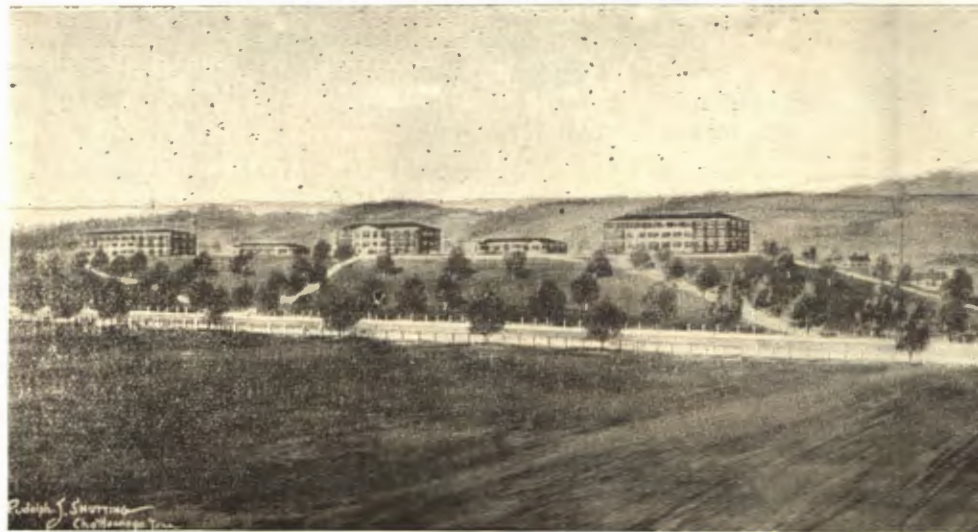

For the year 1918-19 the schedule will be as follows:

	Girls	Boys
Tuition.....	\$75.00	\$75.00
Home expense, including room, heat, laundry, light, bath...	55.00	55.00
Board for term of 36 weeks..	81.00	108.00
Entrance fees, library, registration, lecture	5.00	5.00
<b>Total....</b>	<b>\$216.00</b>	<b>\$243.00</b>

The above figures emphasize the fact that while the tuition was lower last year than this year,

the amount of work performed by the student as two-hour required time practically made up the difference in the total expense. It has been thought a better plan to put our expenses on a cash basis, and then any amount of work done by the student will apply directly toward reducing his school expense at whatever wage he earns.

In order that the student might experience the value of manual work along with study, he is asked to accumulate at least \$5 per month credit for labor, this

The School Plant as It Will Look W

amount to apply on the actual expense of his schooling--thus if the rate for a student is 10 cents an hour, it will be necessary to have credit for fifty hours per month in order to earn this \$5, while if the rate is 25 cents an hour, it will only be necessary to have credit for twenty hours in order to earn the \$5. Every student will be encouraged to do all he can to lessen his expenses, and is not to feel, when this \$5 credit has been accumulated, that he has closed his obligation to the school and to his parents.

## MUSIC

It has been planned this next year to give a good course in orchestral playing. We are anxious to develop a school orchestra and band as well as a good choral society. Those students who have ability along this line should plan on bringing their instruments with them and taking up this work. It is also hoped that a great deal can be made from chapel singing. Considerable attention will be given to this phase of music, and keen appreciation on the part of the students of the advantages along this line will do much toward making the work a success.

## A Visit to Collegedale

On my return from Washington, D. C., it was my privilege to spend a few hours at the Southern Junior College. Everybody connected with the school was busily engaged in some line of work. The farm is in excellent shape. It is a credit to the boys and girls who have put in their time, and they can be called loyal citizens so far as the government is concerned, for certainly the farm gives evidence of faithful, hard work. They have canned and dried about 2,400 quarts of snap beans and put up a large amount of fruit. They also have coming on four acres of sweet corn, which ought to furnish more than the school will need the next year. The Lord has blessed them with an abundance of rain.

It may be interesting to know that a Government official took a picture of one of the fields of beans and said it was the finest he had seen anywhere in the state.

The boys' dormitory is to be erected just as fast as possible. The furnace has arrived and they expect the material for the waterworks to all be in next week, and by the time school begins it is expected that the school buildings will be ready for the students.

## ALABAMA

## A Visit to Camp McClellan

Monday, the 15th, I was in Anniston visiting Camp McClellan, which is located at that place. I arrived there about 9 o'clock in the morning and Sister Kelly very kindly took me out in her car. The camp is located about seven miles from the city. My purpose in going was to place books and magazines in the libraries and to visit the Base Hospital. I was surprised to find how eager the boys were to receive our literature. I had several good talks with them and feel that this is a field we have neglected very much the past year.

In one Y. M. C. A. library there were ten thousand books listed, and as far as I could learn there was not one Adventist book there. I left some "Christ's Object Lessons," but feel that we should have many more of our books in this library.

We had thought some of calling on our people throughout the Conference to send books that they do not need and we could place them in the libraries, but after thinking this over we felt that very few of our people had any books that they did not need. We then thought it would be better for everyone that would to send us the price of some good book which we could buy and take up to these places.

We recently had an offering for literature for the soldiers, which is to go for "Steps to Christ," and I am sure if our people throughout the State could realize how the boys appreciate this little book the offering would have been much larger than it was. Now if we could get a few substantial donations with which to buy books to place in these libraries they would certainly be appreciated. Anyone interested can kindly send their donation to this office.

B. C. MARSHALL.

### Notes from the Union Office

Elders S. E. Wight and A. N. Allen returned to Nashville Wednesday night after attending the Council at Washington. Elder Allen spent one day at the Conference office before going to his home.

Brother Cole also returned to the office this week, after being in the field ten days.

Mr. G. H. Curtis is at Oakwood Junior College this week auditing the books of that school for the year.

## Southern Junior College

### Notes

Mrs. C. J. Boyd is very busy in her department, canning. She reports already 250 quarts of peaches, over 100 quarts of beets, 250 quarts of blackberries, 200 quarts cherries, 200 quarts plums, 100 quarts huckleberries. All of this in glass. In addition, there are 500 gallons of beans, and 80 bushels of beans dried.

Work was begun several days ago on the boys' dormitory. Excavation is completed for the foundation to be laid. We have been receiving sand and cement in the carload lots.

The water system has been purchased and is on the ground.

The summer school at Collegedale was a splendid success. The teachers who attended received great benefit, and went away feeling greatly refreshed in their work. There seems to be a good Spirit of enthusiasm in our educational work.

Since the close of summer school we have only 26 young ladies and 20 young men.

Mrs. J. K. Macmillan and family have now arrived at the school.

Professor and Mrs. J. A. Tucker were absent about a week on a visit to the Oakwood Junior College and have now returned.

We were pleased to have a brief visit from Elder S.E. Wight.

Professor A. W. Spalding, of the Southern Publishing Association, spent the Sabbath at the school and occupied the morning hour at the chapel exercises. He also spoke to the Young People's Society Sabbath afternoon. We were very much pleased to have the benefit of his good messages.

Brother Byron Lord, who is now in the army service, and who was formerly at South Lancaster, recently paid us a very pleasant visit.

Brother Willie Crowson and Brother Carl Wooten, from Tifton, Georgia, have recently joined our forces at Collegedale, and we are pleased to have them with us.

Mr. and Mrs. James Thompson, from Chattanooga, are spending a few weeks at the College.

Miss Jaunita Hibben left Collegedale on the 21st, to spend a month at her home in Sheridan, Illinois.

NOTICE — Your attention is called to the change of place and date of the Louisiana colored campmeeting, under head of "Campmeetings."
